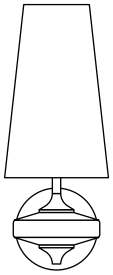
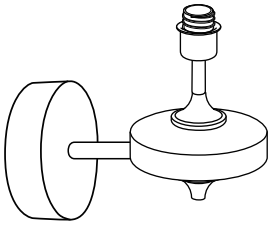
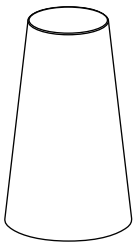
Model# JK-WS001WH38



PACKAGE CONTENTS



1 x Wall Sconces Fixture



1 x Lamp Housing

3 x Wire Nuts

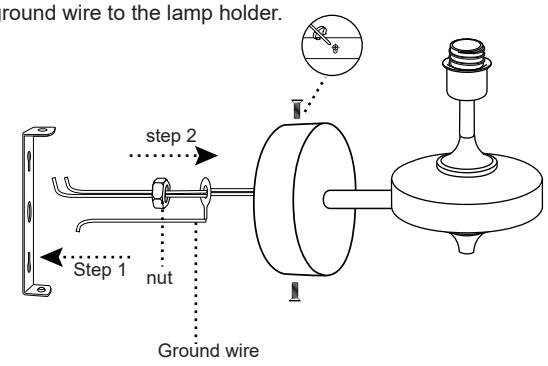
3 x Screws

3 x Plastic Expansion Pipes

How to install the Wall Sconces Fixture

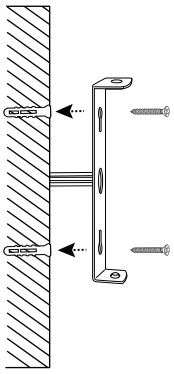
1

Step 1 : Unscrew the screws from the lamp base and remove the mounting bracket.
Step 2 : Slip the ground wire over the lamp holder's wire, then pass the nut through the lamp holder's wire, and tighten the nut to secure the ground wire to the lamp holder.



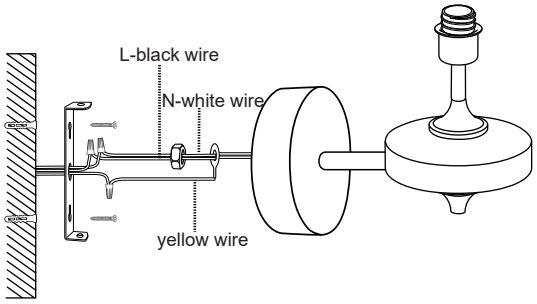
2

Use plastic expansion pipes and screws to secure the bracket to the wall.



3

Connect the house live wire to the black wire (L) from the light fixture using a wire connector.Attach the neutral wire from the house to the white wire (N) from the light fixture. Then, attach the ground wire from the house to the yellow wire from the light fixture the same way. Wrap all wire connections with electrical tape for a more secure connection.
Carefully tuck all wire connections into the outlet box. Finally, use a tool to reinstall and tighten the screws on the lamp holder to complete the installation.



4

After the light fixture is installed, place the lamp house on, insert the bulb, and it's ready to use.
