

Under-Counter Refrigerator Drawers Specifications

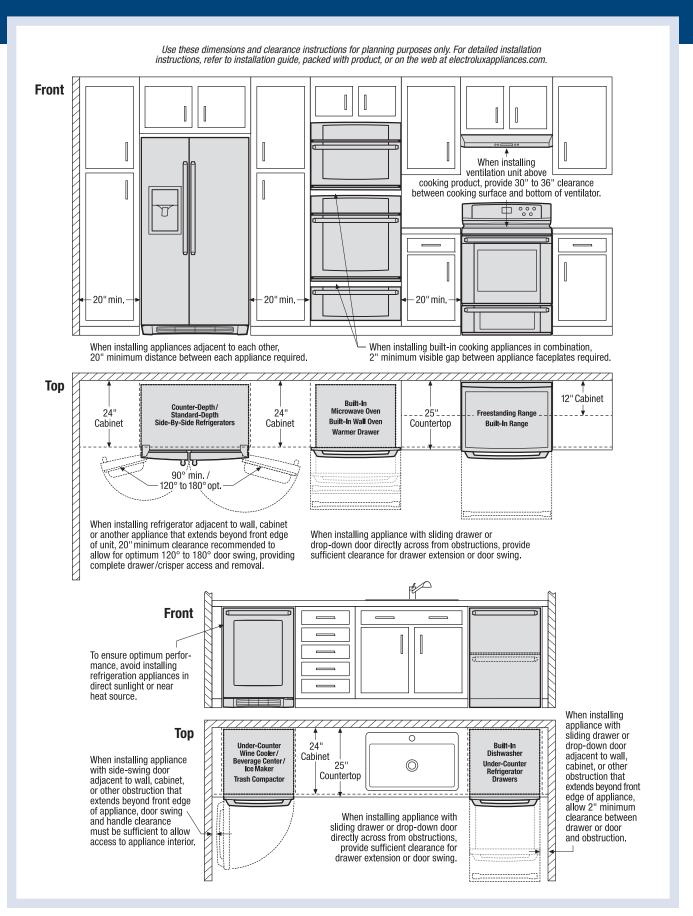

- Product Weight -165 Lbs.
- Voltage Rating 120V/60 Hz/15 Amps
- Connected Load (kW Rating) @ 120 Volts = 0.16kW (For use on adequately wired 120V, dedicated circuit having 2-wire service with a separate ground wire. Appliance must be grounded for safe operation.)
- Amps @ 120 Volts = 1.5 Amps
- Electrical cable supplied.
- Always consult local and national electric codes.
- Unit is designed for built-in, under-counter installation only with use of Anti-Tip Kit and can NOT be used in freestanding installation.
- Built-in, under-counter installation does not require additional airspace for top, sides or rear of unit.
- Proper built-in, under-counter installation requires that both electrical outlet and plug be completely recessed to ensure unit will fit flush against rear wall.

- To allow for ease of installation and removal, it is recommended that cabinet rough opening dimensions be increased by at least 1/4" over product's dimensions.
- For proper ventilation, unit can NOT be installed behind closed doors; front grille MUST remain unobstructed.
- Must be positioned on flat, level surface, capable of supporting entire weight when fully loaded.
- Leveling legs supplied to adjust height and level unit.
- Do not position unit near any heat source to ensure optimum performance.
- Allow 17" minimum for handle clearance with drawers fully extended.

Note: For planning purposes only. Refer to Product Installation Guide on the web at electroluxappliances.com for detailed instructions.
