Batteries included (4 AAA)

| ANSI/PLATO FL1 STANDARD | | | |
|---|---|---|---|
| MODES | LUMENS | RUN TIME | BEAM DISTANCE |
| **Lantern Modes** | | | |
| High | 340 lm | 1h 45m | 18m |
| Medium | 130 lm | 2h | -- |
| Low | 25 lm | 21h | -- |
| **Flashlight Modes** | | | |
| High | 145 lm | 5h 30m | 36m |
| Low | 11 lm | 55h | -- |

## Operation Instructions

**Lantern On/Off & Cycle Modes:** Press and release the button on the front of the light to turn the lantern on and off. Press the button repeatedly to cycle through lantern modes (Low/Medium/High).

**Flashlight On/Off & Cycle Modes:** Press and hold the button on the front of the lantern for 2 seconds to activate flashlight modes. Press button repeatedly to cycle through flashlight modes (High/Low).

## Battery Replacement

The LP1515 uses 4 AAA batteries.
To replace the batteries, turn the base of the lantern counterclockwise to remove it. Tip the lantern downward to slide the batteries out of the battery tubes. Insert new batteries according to the (+/-) symbols outside of the battery tubes. These symbols indicate which side of the battery should be facing up. For best results, we recommend using brand new alkaline batteries that are the same voltage and brand.

Re-attach the base of the lantern by aligning the base to the lantern, pressing down lightly, and turning clockwise until tight.

If you know it will be a while between uses, we suggest removing the batteries from the lantern and storing it in a dry, protected place.

## Product Warranty

The LP1515 has a Limited 90-Day Warranty Against Manufacturer's Defects from time of purchase.
