Spotlight
Kitchen and Bath Products 2013
At Moen, we’re driven to create innovations that enhance the lives of the people who use our products. This singular, guiding principle serves as the foundation for every faucet and every feature we set out to design.

Adhering to such a distinctive design philosophy requires us to gather insights from those who buy, use and install our products. So we take the time to listen, observe and learn from real customers in real-world situations. We do this to bring you more thoughtfully designed innovations and more exceptional experiences. To offer products that not only meet your expectations, but anticipate your desires as well.

You’ll discover the difference this philosophy makes in our unique, user-centric innovations—like ioDIGITAL®, Showering, MotionSense™ Reflex®, and Spot Resist™ finishes.

Innovation is one thing. Inspiration is another.

We know you want a style that can captivate you from across the room. You appreciate designs that spark your imagination and stimulate your senses.

That’s why we pair our meaningful innovations with an exceptional variety of attractive styles and dazzling finishes. From the elegance of period traditional to the streamlined refinement of minimalist contemporary, you’ll find a host of amazing ways to express yourself and invite beauty into your home.

Count on Moen. For products with a purpose, looks that appeal and experiences that will delight.

It’s not just a faucet.
It’s a philosophy.

*Kitchen and Bath Products 2013*
Still undecided?

Visit the Faucet Selector tool at moen.com to find options that match your style, budget and more. All you have to do is answer a few questions about your kitchen or bath and select from a list of personal preferences. It’s a fast and easy way to choose the perfect faucet for your project and your dreams. Try it at www.moen.com/#faucet-selector.

Access Moen online. And on the go.

Whether you connect with us on your computer or your smartphone, Moen is your 24/7 resource for useful information: get inspired with ideas, use our Faucet Selector tool to find a faucet that fits your taste and budget, view product details and select from additional finish options. Find out how to install your faucet, or find an installer to do it for you. Download literature and more! Check us out.
Create the kitchen of your dreams.

From traditional to contemporary and everything in between, Moen has the style you're looking for to help create the kitchen of your dreams.

Our kitchen suites feature a variety of stylish, functional and reliable kitchen faucets available in multiple finishes.

All designed to fit your lifestyle and enhance your décor.

All Moen lav and kitchen faucets are California AB1953 and Vermont S152 compliant.
Design is more than style. Consider faucet functionality.

- Hands-free convenience makes routine tasks faster and easier.
- Pulldown spouts provide easy access in and around the sink.
- High-arc designs are perfect for filling larger pots.
- Two-handle faucets enable precise adjustment. Single-handle models offer easy, one-hand operation.
- The Pot Filler is the ultimate epicurean luxury in the kitchen.
- Bar faucet brings water to entertainment or prep areas.

Determine the mounting options for your sink.

- Faucets are measured by the distance between mounting holes, center-to-center.
- Most two-handle kitchen faucets are 8-inch centers, while bar faucets are 4-inch centers.
- If you chose a single-hole mount faucet, extra holes can be covered by a deckplate or used for accessories such as a soap/lotion dispenser.
- Undermount sinks allow unlimited flexibility with faucet position.
Wave goodbye to chores and hello to hands-free convenience.

Imagine the convenience of having a kitchen faucet that can sense what you’re trying to accomplish and respond to what you need, the moment you need it. MotionSense™ does.

With MotionSense, you can use simple hand movements to turn the water on and off. This hands-free convenience lets you speed through everyday tasks with greater ease and efficiency. Plus, being able to use the faucet without having to touch it helps you control the spread of dirt and germs—reducing the chances of cross-contamination and minimizing the need to repeatedly clean your faucet.

Three ways MotionSense™ responds to you.

1. Pass your hand over the Wave Sensor at the top of the faucet spout. MotionSense will turn your faucet on and run water until you turn it off. Great for filling large pots and washing dishes.

2. The Ready Sensor detects when you place your hands or an object below the spout and supplies water only until you exit the sensor zone. That means you’ll use water more wisely when you need to wash your hands or rinse a plate.

3. Use the handle at any time to turn on the faucet or adjust flow and temperature.

Watch MotionSense deliver convenience on command. Scan here for a video demo. Download app at getscanlife.com.
Spot Resist™ Finish

At Moen, we know that keeping your kitchen faucet free of fingerprints and water spots is an ongoing battle. It’s not surprising, because the kitchen is the most used room in your home.

That’s why we developed the Spot Resist Stainless finish. Spot Resist does just what it says—resists fingerprints and water spots—so you’ll have one less thing you need to clean every day. This attractive finish maintains the brilliance of your faucet so you can spend more time enjoying your home ... and less time cleaning it. And when it is time for periodic cleaning, Spot Resist easily wipes clean.

reflex® A truly user-friendly experience.

The Reflex® system is a comprehensive collection of features and design enhancements created to optimize hose and sprayer operation on Moen pulldown faucets. These improvements combine to work in concert with each other—enhancing overall functionality and usability, and delivering a truly user-friendly experience.

Easiest to pull down
Compared to any other pulldown design, Reflex makes Moen pulldown faucets at least 40% easier to unlatch and extend.*

Exceptional range of motion
Combined with an ultra-flexible hose, the spray wand swivels to offer a wide range of motion and effortless, natural response.

Self-retracting action
Only pulldown faucets with the Reflex system will retract to the docked position from any distance without additional assistance.

*Test measured pounds of force required for straight extraction of sprayer from spout.
MotionSense provides the convenience of having a kitchen faucet that can literally sense what you’re trying to accomplish and respond to what you need, the moment you need it. That’s because MotionSense activates flow based on simple hand movements. This convenient, hands-free control assists in accomplishing routine tasks with greater speed and efficiency. MotionSense is now available on faucets in our traditionally styled Brantford collection or with the tailored look of our transitionally styled Arbor collection.

Brantford High-Arc Hands-Free Single-Handle Pulldown Faucet with MotionSense / 7185E NEW!

Arbor High-Arc Hands-Free Single-Handle Pulldown Faucet with MotionSense / 7594E

See page 9 for more information.

CHOOSE YOUR FINISH
Chrome (C), Oil Rubbed Bronze (ORB), Spot Resist™ Stainless (SRS)
90°™

With ultra-modern styling, 90° kitchen and bar/prep faucets are a study in minimalism. Geometric forms, squared corners and straight lines create an urban focal point for today’s contemporary kitchens.

CHOOSE YOUR FINISH
Chrome (C), LifeShine® Classic Stainless (CSL), Spot Resist™ Stainless (SRS)

NEW!
See page 9 for more information.
Woodmere®

Woodmere kitchen and bar/prep faucets deliver traditional style redefined for today’s more casual homes. Distinctive details, like a flowing high-arc spout and gently contoured handle, add charm without the fuss.

**CHOOSE YOUR FINISH**
Chrome (C), LifeShine® Classic Stainless (CSL), Oil Rubbed Bronze (ORB), Spot Resist™ Stainless (SRS)

See page 9 for more information.

**reflex™**

See page 9 for more information.

**SPOT RESIST.**

See page 9 for more information.
Ascent®

With Ascent, modern style is anything but austere. Clean, precise and undeniably contemporary, Ascent kitchen and bar/prep faucets have a sweeping style that brings contemporary vibrancy to a space.

Ascent® 90

Ascent 90 takes the clean, precise lines of our Ascent collection a step further with a wider-angle spout that makes any sink a modern showplace.

NEW!
STō™ NEW!

It’s what you don’t see that makes all the difference. The pulldown wand blends seamlessly into the slim faucet neck for an impeccably put-together look that keeps modern conveniences concealed. Precision lines from top to bottom create a style that can be carried throughout contemporary kitchens.

Single-Handle Pulldown Faucet / S72308 NEW!

Single-Handle Pulldown Bar/Prep Faucet / S62308 NEW!

CHOOSE YOUR FINISH
Chrome (C), Matte Black (BL), Spot Resist™ Stainless (SRS)
Waterhill®

Vintage, farmhouse-fresh and full of character: The Waterhill collection of kitchen and bar/prep faucets brings provincial elegance to today’s more traditional homes. Period-era details, like a gooseneck spout, bridge design and top finial, give each faucet an authentic feel.

See page 9 for more information.

CHOOSE YOUR FINISH
Chrome, LifeShine® Classic Stainless (CSL), Oil Rubbed Bronze (ORB), Spot Resist™ Stainless (SRS), Wrought Iron (WR)
Weymouth® **NEW!**

Weymouth’s gracious design details and distinctive Victorian finishing touches present a sense of uncommon luxury for today’s traditional kitchens. Signature styling elements include a decorative top finial and a refined shepherd’s spout.

**CHOOSE YOUR FINISH**

Chrome (C), Oil Rubbed Bronze (ORB), Spot Resist Stainless (SRS), LifeShine® Polished Nickel (NL)

**NEW! Weymouth® Single-Handle Faucet with side spray / S72101 NEW!**

**NEW! Weymouth® Single-Handle Bar/Prep Faucet / S62101 NEW!**

See page 9 for more information.
Pot Filler

Ready to inspire the master chef in you? The Pot Filler is the ultimate epicurean luxury with all the details needed to ensure convenient flow control over a cooktop. Dual joints allow for maximum reach, and dual shutoff valves mean never reaching over a hot surface to turn it off. Choose from two distinct styles—Traditional or Modern—to coordinate with any décor preference.

Modern Pot Filler with dual shut-offs / S665
Not available in Oil Rubbed Bronze

Traditional Pot Filler with dual shut-offs / S664

See page 9 for more information.

CHOOSE YOUR FINISH
Chrome, LifeShine® Classic Stainless (CSL), Oil Rubbed Bronze (ORB), Spot Resist™ Stainless (SRS)
Arbor®

Arbor’s smooth profile is tailored to perfection. The slight flare of the handle and the curve of the pulldown spout make this a transitional look that works with a variety of decorating styles.

CHOOSE YOUR FINISH
Chrome (C), Matte Black (BL), LifeShine® Classic Stainless (CSL), Oil Rubbed Bronze (ORB), Spot Resist™ Stainless (SRS)
Brantford™

Like the best decorative appointments, Brantford kitchen and bar/prep faucets make a traditionally styled space feel truly finished. The bulb-shaped pulldown spout enhances the curvature of the faucet body and handle, for a truly polished look.

**CHOOSE YOUR FINISH**

Chrome (C), LifeShine® Classic Stainless (CSL), Oil Rubbed Bronze (ORB), Spot Resist™ Stainless (SRS)

NEW!
From intimate galley kitchens to large gourmet workstations, Align faucets bring a refreshed modern look to your home. Simple lines create the contemporary style, while a pulldown wand delivers in-demand functionality.

See page 9 for more information.
Level®

Level kitchen and bar/prep faucets deliver an urban style that’s crisp and bold. With its cultivated European influence, Level brings modern design and chic sophistication to any kitchen.

CHOOSE YOUR FINISH
Chrome (C), LifeShine® Classic Stainless (CSL)

See page 9 for more information.
Aberdeen™

Elegance abounds with Aberdeen kitchen faucets. With many intricate architectural details, its traditional style also delivers up-to-date functionality. The extra height of the high-arc spout provides ample clearance to wash large pots.

CHOOSE YOUR FINISH
Chrome (C), LifeShine® Classic Stainless (CSL), Oil Rubbed Bronze (ORB)

See page 9 for more information.
Vestige®

A faceted base and elegant, high-arc spout are perfect examples of the stunning details that make Vestige so special. This turn-of-the-century design is an ideal match for a highly traditional kitchen outfitted with authentic stone or marble.

**NEW!**
See page 9 for more information.

**CHOOSE YOUR FINISH**
Chrome (C), LifeShine® Classic Stainless (CSL), Oil Rubbed Bronze (ORB), Spot Resist™ Stainless (SRS)
Camerist®

It’s the little things that add up to a lot of transitional style for Camerist: a flared-tip spout, simple curves and single-handle operation create an updated basic collection.

SPOT RESIST.

Shower & Bath
Custom Options and Collections
The easy indulgence.

The innovative ioDIGITAL® controller lets you fine-tune water temperature and flow with electronic precision. And once you’ve dialed in a great spa experience, you can recreate it any time you desire with the touch of one button. Add the convenience of an optional remote control to turn on your bath or shower from across the room or while still in bed. Best of all, Moen makes this technology easy to understand and simple to use—because that’s the way a spa should be!
VERTICAL SPA

The ultimate blend of technology and luxury. The ioDIGITAL vertical spa controller puts you in command of precise temperature and flow, four custom presets and one-touch activation of multiple water spray outlets as well. Switch from shower to body spray, tub spout, hand shower or rainshower. The choice is yours.

SHOWER

ioDIGITAL can make your shower feel great even before you get wet. Call up your preferred temperature and flow at the push of a button, and wait for the LED indicators to tell you when your shower matches your settings. No cold shocks or scramble to adjust handles the instant you step in.

ROMAN TUB

Imagine having someone to draw you a bath every day. ioDIGITAL will. Push your preset, close the drain, and go light a few candles. ioDIGITAL will have your tub filled to the perfect temperature and level whenever you’re ready to slide in.
Custom Showering Options
Moen® components are designed to work together so you can create a complete customized showering system using several options. Need help getting started with your design? Visit www.moen.com/#shower-planner.

MAKE IT YOUR OWN
As the leader in the industry, Moen offers you the ultimate flexibility to create just about any showering experience you can imagine. You’ll even find innovations that use water more efficiently without sacrificing performance. All in the look you love. Which means it’s easy for you to turn your dream design into a showcase shower.

Ask your showroom representative to help you assemble the right products to match your idea of extraordinary.

VERTICAL SPAS
Our vertical spa system delivers the premium experience you demand: maximum force, flow and coverage. And let’s not forget pure design freedom. They’re all critical to your enjoyment of a relaxing shower. And they’re all front and center in the Moen vertical spa experience.

Create nearly any vertical spa imaginable with high-quality Moen components. Place your desired components on a single wall or surround yourself in blissful exhilaration. And don’t forget the ceiling—a perfect spot to mount a rainshower.

With an Isabel® Multi-Function showerhead, you can go from a relaxing rainshower to a concentrated rinse at the flip of a lever. Immersion® Rainshower Technology creates three times more spray power than traditional rainshowers for better performance.

Use body sprays to direct a vigorous flow of water at any, or every, inch of your body. Moen flushmount models feature a wider angle of pivot for more precise aim and more complete coverage.

For added indulgence, install a ceiling-mounted showerhead to replicate the tranquil, water-drenching sensation of being in a soothing rain shower.

Go beyond the standard showerhead. Install a hand shower to get a wide range of motion and spray water only where you want it. Ideal for bathing kids and pets, and a safe option for those who need to sit while in the shower.
Until now, rainshowers have been plagued by drooping spray and poor performance due to lack of water pressure across the entire spray face. Exclusive Immersion® Rainshower Technology channels water through a spoke design in the showerhead cavity. This concentrates and magnifies the natural force of water to dramatically enhance your showering experience. Immersion is featured on every Moen® rainshower showerhead.

Moen’s multi-function rainshowers go from an 8” spray face rainshower to revitalizing rinse with the flip of a lever. You get two refreshing experiences from one showerhead.

‡All indicated Moen flow-optimized showerheads use up to 30% less water (compared to traditional showerheads) without sacrificing performance and contribute towards maximizing LEED® points.

†All indicated Moen flow-optimized showerheads use up to 30% less water (compared to traditional showerheads) without sacrificing performance, are certified to meet WaterSense® labeling criteria and contribute towards maximizing LEED® points.
Surround yourself in luxury.

Whether you’re searching for clean, contemporary décor, Old World styling or anything in between, Moen has a bathroom collection to suit every taste.

Our bathroom suites range in style from traditional to modern, encompassing all styles in between. They’re also available in a variety of on-trend finishes and styles including single- and two-handle faucets, Roman tub faucets, garden tub faucets, bidets and trims.

All Moen lav faucets feature a flow-optimized aerator, using up to 30% less water (compared to traditional faucets) without sacrificing performance, are certified to meet WaterSense® labeling criteria and contribute towards valuable LEED® points.

All Moen lav and kitchen faucets are California AB1953 and Vermont S152 compliant. Moen offers many Eco-Performance products that contribute toward meeting CALGreen requirements.

For more information on CSI accessories from Moen, visit moen.com or call 1-800-BUY-MOEN.
Design is more than style. Consider faucet functionality.

- Measure your sink and faucet to determine what models will fit. Faucets are measured by the distance between the mounting holes—center-to-center.
- Most centerset and mini-widespread faucets are 4” centers, while widespread faucets range from 8” to 16”.

Determine the mounting options for your sink.
Weymouth®

Weymouth’s gracious design details and distinctive Victorian finishing touches present a sense of uncommon luxury. Signature styling elements include porcelain inlays with antiqued decorative script and a refined shepherd’s spout. Complement Weymouth with coordinated lighting and accessories to make an extravagant statement in your traditional bath.

†All indicated Moen flow-optimized showerheads use up to 30% less water (compared to traditional showerheads) without sacrificing performance, are certified to meet WaterSense® labeling criteria and contribute towards maximizing LEED® points.

*Rough-in valve required. Please see price catalog for rough-in model numbers.
One of the quickest and easiest ways to change your bathroom’s style is by updating or adding accessories. For a rather small investment and a short amount of time, you can completely change the look of your bathroom.

From towel bars and robe hooks to shelves and mirrors, Creative Specialties International® (CSI) features accessories designed to coordinate and complete the style and configurations of your Moen® bath collection.

For more information on CSI accessories from Moen, visit CSI.moen.com or call 1-800-BUY-MOEN.
The perfect match for a modern kitchen.
New for 2013: Align™. See the full collection on page 20.
