

Post Defense™ Wood Porch Posts

NEW! Post Defense program now applies to ALL Turncraft porch posts!

Porch posts are turned from finger-jointed, kiln dried western wood species. All turned surfaces are factory sanded.

Since moisture is one of the primary problems in fungal wood decay, Post Defense posts are factory sealed on the bottom end. This end must never be trimmed - doing so will void the warranty. This sealer provides an effective method of controlling moisture and inhibiting the growth of fungal decay. Our specially formulated 100% acrylic latex primer is applied, adding to the prevention and control of moisture and fungal decay. Quick-Mount™, aluminum plinths, or other elevated platforms are required on each post for warranty coverage.

The Post Defense limited lifetime warranty is only available in the continental USA. Contact Turncraft for complete warranty and installation instructions.
