**WM3500CW**
4.5 cu. ft. Front Load Washer

**SUMMARY**
- Capacity (cu.ft.): 4.5 cu. ft.
- Matching Electric Dryer: DLE3500W
- Matching Gas Dryer: DLG3501W
- Color: White (W)

**PRODUCT FEATURES**
- 4.5 Cu.Ft. Capacity
- 10 Wash Programs
- 6Motion™ Technology
- Inverter Direct Drive Motor with 10-Year Warranty
- TWINWash™ Compatibility
- SmartThinQ® (Wi-Fi Enabled)
- SmartDiagnosis™
- ColdWash™ Option
- ENERGY STAR® Most Efficient 2019
- NeverRust™ Stainless Steel Drum
- Available in White (W)

**KEY FEATURES**
- **WASH PROGRAMS**
  - No. of Programs: 10
  - Normal, Perm. Press, Heavy Duty, Delicates, Towels, Speed Wash, Bedding, Tub Clean, Whites, Downloaded
- **WASH OPTIONS**
  - No. of Options: 10
  - Fresh Care, Prewash, Remote Start, Delay Wash, en fi, Add Garments, Cold Wash, Extra Rinse, Spin+Spin, Child Lock

**SMART APPLIANCE**
Enjoy new ways to control your home with LG smart appliances
- Start the laundry while you're out shopping
- Get alerts when the cycle is finished
- Works with the LG SmartThinQ app

**POWER SOURCE**
- Ratings: UL Listed
- Electrical Requirements: 120V, 10 Amps
- Type: Electric

**OPTIONS/ACCESSORIES**
- Pedestal: WDP4W
- Pedestal (WxDxH): 27 x 14 1/8 x 30 3/4
- LG Sidekick™ Pedestal Washer: WD100CW
- LG Sidekick™ Pedestal Washer (WxDxH): 27 x 14 1/8 x 30 3/4
- Stacking Kit: KSTK1

**DIMENSIONS**
- Product (WxHxD): 27" x 39" x 30 1/4"
- Depth with Door Open: 55" D with door open
- Carton (WxHxD): 29 23/32" x 41 27/32" x 31 17/32"
- Weight (Product/Carton): 169.2 / 218.2 lbs.

**UPC CODES**

4.5 cu. ft. Front Load Washer

QUICK INSTALL & CLEARANCES

For full installation directions/clearances please refer to the corresponding User Manual and Installation Guide.

DIMENSIONS

| A Width       | 27" |
| B Height      | 39" |
| C Depth       | 30 1/4" |

Carton (WxHxD)
29 23/32" x 41 27/32" x 31 17/32"

POWER SOURCE

- UL Listed
- 120V, 10 Amps
- Electric

CONNECTING THE WATER LINES

- Water supply pressure must be between 20 psi and 120 psi (138~827 kPa). If the water supply pressure is more than 120 psi, a pressure reducing valve must be installed.
- Install the washing machine on a solid floor that is strong and rigid enough to support the weight of the washing machine, even when fully loaded, without flexing or bouncing. If the floor has too much flex, you may need to reinforce it to make it more rigid. If the floor is not solid, it may cause severe vibration and noise.
- It is the personal responsibility and obligation of the product owner to have a proper outlet installed by a qualified electrician.
- The power outlet must be within 60 inches (1.5 m) of either side of the washer.
- The appliance and outlet must be positioned so that the plug is easily accessible.
- Do not overload the outlet with more than one appliance.
- The drain hose must be installed in accordance with current wiring codes and regulations.
- The drain hose should always be properly secured. Failure to properly secure the drain hose can result in flooding and property damage.
- The drain must be installed in accordance with any applicable local codes and regulations.
- Normal height of the end of the hose should be approximately 35"~47" (0.9~1.2 m) from the floor.
- Do not install the end of the drain hose lower than 29 in. (73.7 cm) or higher than 96 in. (243.8 cm) above the bottom of the washer or more than 60 in. (152.4 cm) away from the washer.
- Never create an airtight seal between the hose and the drain with tape or other means. If no air gap is present, water can be siphoned out of the tub resulting in poor wash/rinse performance or clothing damage.

CONNECTING THE DRAIN HOSE

- Do not insert the end of the drain hose into the standpipe more than 8 inches (20 cm). Doing so can cause siphoning, odors, or improper draining.
- Do not use this drain hose with a floor drain.
- The end of the drain hose must be at least 29 inches above the floor for proper draining to occur.

ELECTRICAL REQUIREMENTS

- The washer should be plugged into a 120-VAC, 60-Hz grounded 3-prong outlet. Plug in the washer. Improper connection of the equipment-grounding conductor can result in risk of electric shock. Check with a qualified electrician or service technician if you are in doubt as to whether the appliance is properly grounded.
- Do not modify the plug provided with the appliance. If it does not fit the outlet, have a proper outlet installed by a qualified electrician. Failure to follow these warnings can cause serious injury, fire, electrical shock, or death.
- Do not overload the outlet with more than one appliance. The outlet must be installed in accordance with current wiring codes and regulations.
- The power outlet must be within 60 inches (1.5 m) of either side of the washer.
- The appliance and outlet must be positioned so that the plug is easily accessible.
- Do not overload the outlet with more than one appliance.
- The outlet must be grounded in accordance with current wiring codes and regulations.
- Time-delay fuse or circuit breaker is recommended.
- It is the personal responsibility and obligation of the product owner to have a proper outlet installed by a qualified electrician.

- Normal height of the end of the hose should be approximately 35"~47" (0.9~1.2 m) from the floor.
- Do not install the end of the drain hose lower than 29 in. (73.7 cm) or higher than 96 in. (243.8 cm) above the bottom of the washer or more than 60 in. (152.4 cm) away from the washer.

- Do not insert the end of the drain hose into the standpipe more than 8 inches (20 cm). Doing so can cause siphoning, odors, or improper draining.
- Do not use this drain hose with a floor drain.
- The end of the drain hose must be at least 29 inches above the floor for proper draining to occur.
