

GL2.5

GL4

GL6+

Ariston GL2.5; GL4; GL6+

Installing an Ariston electric mini-tank water heater under the sink puts hot water right where you need it—at the point-of-use. Lightweight and compact, this heater is available in three space-saving sizes: 2.5, 4 and 6+ gallons. These heaters are aesthetic on the outside, glass-lined on the inside, and offer superior insulation for higher efficiency.

Easy to size

GL2.5 for 1 sink

GL4 for 2 sinks

GL6+ for 2 or more sinks

FEATURES

- Glass-lined tank for longer life
- 6-year warranty on tank – 1 year on parts
- 2.5- and 4-gallon models plug into standard 110-volt outlet. Easy installation
- Temperature/pressure relief valve included
- 6-gallon model can be mounted horizontally or vertically
- Meets ASHRAE 90.1 standard
- Mounts on wall or floor
- Three sizes to choose from
- Elegant Italian design

Relief Valve	Installed	Installed	Included

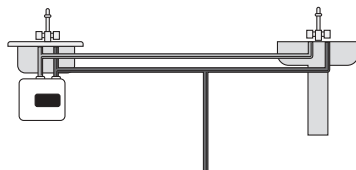

* gph = Gallons Per Hour

Easy Installation

Simply tap into the cold water line and install the heater directly at the sink. The 2.5- and 4-gallon models plug into a standard 110-volt outlet. The 6+ gallon model requires hard wiring. And when you want to eliminate the wait for hot water but need more volume, install the Ariston water heater in-line with a larger hot water source.

In-line Installation

Independent Installation

Ariston GL2.5 Installation
