# Tranquility® 5' Whirlpool Bath 66051101

## **Required Electrical Service**

One circuit required, protected with Class A Ground-Fault Circuit-Interrupter (GFCI) or Residual Current Device (RCD).

Pump: 120 V, 15 A, 60 Hz

## **Technical Information**

All product dimensions are nominal.

Installation: Drop-in, 3-Wall Alcove

Drain location: End

Basin area, bottom: 42" x 23" (1067 mm x 584 mm)
Basin area, top: 51" x 32-1/2" (1295 mm x 826 mm)

Water depth: 11-1/4" (286 mm) Water capacity: 56 gal (212 L)

Electrical component Pump: 120 V, 7 A, 60 Hz

rating:

Pump speed: Single

Minimum flat for door: 1-1/4" (32 mm)

#### **Notes**

Install this product according to the installation instructions.

Provide one grounded electrical outlet within 24" (610 mm) of each component.

Pump is supplied with 24" (610 mm) grounding-type plug-in cord. Locate the outlet behind the whirlpool, and within 24" (610 mm) of the pump.

Pump service access is required.

Do not disassemble the pump or piping as this could void the warranty.

Size the drain cutout to fit the drain assembly that will be used.

End stud positioning is critical if nailing-in flanges are to be used.

Double-studding is recommended for pivot shower door installations.

Studs should be positioned roughly as shown for support clip or roofing nail installation.
