

Powerful yet lightweight, the TA184CSL hand-held saw features a Powerful motor that will take on some of the toughest timbers with plenty of power in reserve. Accurate and safe to use, the built-in laser line generator produces accurate cuts and increases productivity. Handling is also made easy with the front bail handle, which offers a greater level of control and comfort over the traditional handle design. Aluminium alloy construction on the upper and lower guards and base ensures greater strength and durability, resulting in a significantly lighter tool.

**Easy Access Brushes**  
enables brushes to be changed quickly and easily

**Dust Extraction Port**  
for easy connection to a dust collection system

**LASER**  
**Laser Line Generator**  
for increased accuracy, safety & maximum productivity

**Front Bail Handle**  
offers greater grip & control at various operating angles

**1800W / 2½hp Motor**  
provides enough power for even the toughest timbers

**Rubber-Coated Return Lever**  
for easy access & control of the lower guard

**Power Neon-On**  
increases operator safety

**Beveling to 45°**  
increases range of adjustment

**triton**  
Precision Circular Saw 184CSL 7¼"

**Ø185mm x Ø20mm x 2.2mm x 24TCT**  
Combination Saw blade for use on portable corded circular saws only  
MAX. 6,500 RPM

or metal cutting applications unless otherwise specified.  
\* Always wear eye protection.  
\* Always use a sharp blade.  
\* Please blade securely in proper direction of rotation.  
\* Please refer to operation manual for correct blade mounting method.

## ❖ Selling Points

- Laser line generator for increased safety, faster set-up & improved accuracy
- Large, rubber-coated guard return lever for easy access & control of the lower guard
- Dust extraction port for easy connection to a dust extraction system
- Ergonomically designed casings & handles for greater operator comfort
- Quick access to change worn brushes
- Front bail handle allows greater grip & control

## ❖ What's in the Box

- 24 HSS Blade
- Pin Wrench & Hex Key
- Parallel Guide
- Dust Extraction Adaptor
