ALAMEDA EDGER

We reserve the right to improve our products and make changes in the specifications and design without notice. The information contained herein has been compiled by KEYSTONE and to the best of our knowledge, accurately represents the KEYSTONE product use in the applications which are illustrated. Final determination of the suitability for the use contemplated and its manner of use are the sole responsibility of the user.

Keystone Alameda Edger brings the tranquility and beauty of naturally worn river rock to a project.

# Alameda<sup>®</sup> EDGER

**Unit Dimensions:**  
3.6" h x 3.6" w x 12" l  
Approx. Weight: 10.5 lbs

Use this chart to estimate the number of unit you will need.

	Linear Project Length									
	5'	10'	15'	20'	25'	30'	35'	40'	45'	50'
Units	5	10	15	20	25	30	35	40	45	50

### Mark & Dig

Mark an outline of your project. Then dig a shallow trench 3" deep by 6" wide to receive the edging unit.

### Place & Level

Place units in the trench, over landscape fabric.

### Base Preparation

Lock the ball from one unit into the socket of the next to achieve any angle up to 180°. Curves, radii and corners are a snap!
