

CI304DTB2

30" 4 Zone Touch&Slide Induction Cooktop

Traditionally, we cook by generating heat from one source, such as a flame, and conducting it to another. Fisher & Paykel Induction Cooktops work on a different principle. The cooktop itself produces an electromagnetic field which induces the pot or pan to generate its own heat. The results are shorter heat-up times, greater precision and a safer cooking surface.

Ceramic glass with stainless steel trim

Dimensions

Depth	20 7/8"
Height	3 11/16"
Width	29 1/2"

Specifications

Cleaning

Flat easy clean glass surface	•
