36" ELECTRIC COOKTOP

This Fisher & Paykel Electric Cooktop has a completely flat profile. This allows you to move pots and pans around the surface simply and quickly and provides extra storage space when it is not in use. High-speed ribbon elements heat up quickly and maintain an even temperature for faster cooking while the stylish dark ceramic glass surface is a breeze to clean.

FEATURES & BENEFITS

Perfect Results	Solid performance with superb simmer results, our 36" Electric Cooktop allows you to move pots and pans around simply and quickly while high-speed ribbon elements provide good temperature control from a rapid boil to an extremely low simmer.
Designed to Match	Designed using premium quality materials, the finishes and controls match the rest of our coordinated kitchen family.
Sized to Suit	This cooktop has five elements, giving you room to boil, fry, steam and simmer all at once. The perfectly flat surface cools down quickly when switched off, so that the surface can be used as an extra preparation area if needed.
Easy Cleaning	The flat surface makes our Electric Cooktop very easy to clean. Ceramic glass is very strong, adding to the durability and performance of the cooktop.
Precise Control	Easy-to-use dials provide precise temperature control from a rapid boil to an extremely low simmer. Two dual elements provide a choice of seven cooking zones.
Safe and Sound	Hot surface indicators glow until the surface is safe to touch. We use ecofriendly ceramic glass in our cooktops, without any arsenic or heavy metals used in the manufacturing process.
