Black Jack® Rubr-Coat™ is a rubberized premium fibered asphalt coating for weatherproofing roofs & foundations. This durable liquid applied coating combines asphalt and rubber to provide a tough finish that resists water and moisture penetration. **Rubr-Coat™** has exceptional adhesion to existing roofing, masonry, wood, and metal surfaces. On roofs, **Rubr-Coat™** seals worn roof surfaces and provides a great base to apply reflective coatings over it. For below grade applications, this coating protects masonry, foam board insulation, wood and metal surfaces from moisture. May also be used to bond or coat foam board surfaces. **Rubr-Coat™** is a versatile product that offers great protection from the elements.
