## Use Directions

 **Bottle Fill: For use on *normal/light* soils.** Fill spray bottle half full with cold water. Select spray bottle icon with **one drip** on SmartDose bottle, pull up on selector knob until it stops, then completely push down on selector knob. Finish filling the spray bottle with water. (Only one dose of concentrate per 32 oz. of water.)

 **Bottle Fill: For use on *heavy* soils.** Fill spray bottle half full with cold water. Select spray bottle icon with **three drips**, pull up on selector knob until it stops, then completely push down on selector knob. Finish filling the spray bottle with water. (Only one dose of concentrate per 32 oz. of water.)

1.

Turn the control knob to select the appropriate icon.

2.

Pull up on control knob one time to prime the pump.

3.

Push the knob down fully to pump a precise dose of concentrate needed for the correct dilution when mixed with water.
