Laurel Mountain Whirlpool Options

With a simple search on Lowes.com using the model numbers listed below (Example- LM101), you can order these options to be factory installed on your Laurel Mountain whirlpool.

Inline Heater

An electric heater (120V) is factory installed and maintains the temperature of the water between 101 and 104 degrees F. The heater operates when the whirlpool system is in use.

LM300 – Inline Water Heater

Whirlpool Trim

Metallic finish trim kits are available to replace color matched trim that is standard on the tub. The 8 metallic finish jet trim rings, 8 jets, on/off button, speed control button, and suction cover are factory installed and are not sold separately.

LM101 – Chrome
LM102 – Brushed Nickel
LM103 – Bronze
LM104 – Polished Brass

Deeper Soak Drain & Overflows

An additional 1 ¾" of soaking depth is available with this premium cable operated drain and overflow. The decorative overflow trim is turned to open & close the drain. Heavy duty PVC piping is supplied to complete the installation.

LM200 – Chrome
LM201 – Brushed Nickel
LM202 – Bronze
LM203 – Polished Brass
LM210 – White
LM211 – Biscuit
LM212 – Almond
LM213 – Linen
LM214 – Bone

Chromotherapy "Mood Lights"

The LED lighting system will provide the therapeutic effects of chromatherapy. The system is programmed with ten lighting modes that will sequence automatically or you may choose to stop on a desired mode. The mode sequence is: Magenta, Blue, Red, White, Sunburst, Green, Tidal Wave, Afterburn Fade, Color Burst and Slow Dance. The therapy by general color category is: blue for calming and conversation, green to assist in relieving stress or trauma, violet to help in meditation and intuition, yellow for intellectual stimulation, and red as an energizing color meant to stimulate or excite. Still not sure? Check the youtube link on www.laurelmountainwhirlpools.com to see the mood light at work.

LM522 – Chromotherapy "Mood Light"

Extra Lumbar Jets / Pump Upgrade

Two additional factory installed jets are available with a standard whirlpool. The jets are placed in the lower or mid back area depending on the tub ordered. Two rotary jets are provided with this option. The rotary inserts spin as well as pulse to provide maximum lumbar massage action. The jets may also be adjusted for water volume and direction. Ordering LM500 will add two additional jets, LM501 will add two additional jets and upgrade the pump from 2HP to 2.5HP.

LM500 – Lumbar Jets LM501- Lumbar Jet Package

Hydrotherapy Back Massage System

The eight jet back massage system is the ultimate back massage system. It is powered by a ¾ HP pump and has its own air control, on/off switch, and cycle valve. The eight jets are strategically located along the lumbar area from the shoulder blades to the lower back to provide the user the ultimate in back massage systems. You control both the speed at which the jets alternate up and down the back area, and the intensity of the massage through the air/water mix of the massage. It's like "magic fingers" of a well-trained masseuse.

LM505 – Chrome	LM508 – Polished Brass	LM511 - Almond
LM506 – Brushed Nickel	LM509 – White	LM512 - Linen
LM507 – Bronze	LM510 – Biscuit	LM513 - Bone

Hydrotherapy Neck Massage

This option replaces the standard pillow with a two jet neck massage pillow. The jets direct a flow of warm water to the neck that improves circulation and relieves stress and stiffness. You decide on the desired massage by selecting a continuous water flow or pulsating water flow and whether the jets will be simultaneous or alternating. You can also adjust the intensity from low, medium, and high.

LM515 – Hydrotherapy Neck Massage

Bariatric / Heavy Duty

The concern of a heavy bather or multiple bathers cracking a tub can be eliminated with this option. The tub will have 50-70 pounds of additional fiberglass and resin reinforcement. The tub will also have an additional ¾" plywood reinforcement under the ¾" OSB.

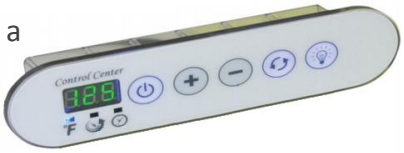
LM537 – Bariatric

Ozonator

This factory installed option sanitizes your whirlpool, it prevents mold and mildew from getting into the whirlpool system. When your whirlpool system is operating your ozonator is generating ozone which is mixed with the re-circulating bath water. The ozone helps neutralize soaps, body oils and other organic and inorganic materials. This option eliminates the need to run a sanitation solution through the tub's circulating system.

LM335 – Ozonator

Solo Touch Controls



This option includes a six speed pump with a wave mode that is operated with a touch pad. Also included is a 30 minute timer, low water sensor, digital temperature display, and a high temperature scalding alarm.

LM321 – Solo Touch Controls

Low Water Sensor & Timer

A pneumatic air switch operates the on/off function and a low water sensor eliminates any chance of operating the tub when empty or at a low water level. A 20 minute timer is also included.

LM323 – Lower Water Sensor and Timer

Roman Tub Faucets

The faucets have solid brass waterways, ceramic disc cartridges and include spout, handles and 12" stainless steel rough hook up.

LM600 – Chrome LM601 – Brushed Nickel LM602 – Bronze

Hand Shower

Easy to use hand shower comes with a full spray showerhead, 60" stainless steel braided hose, diverter and solid brass waterway.

LM605 – Chrome LM606 – Brushed Nickel LM607 – Bronze
