⚠ WARNING:

- Improper installation of this product can result in personal injury. Always wear safety goggles when cutting, drilling and assembling the product.
- Incorrect installation may cause harm to the product or individual.
- Check local building codes to determine pool-safe fencing options.

NOTICE:

- DO NOT attempt to assemble the kit if parts are missing or damaged.
- DO NOT return the product to the store. For assistance or replacement parts call: 1-800-336-2383.

BEFORE YOU BEGIN:

Check your local zoning laws.

- Local zoning laws and Home Owners Associations may regulate the location, style and height of your fence or even require a permit signoff beforehand.
- Check local codes for frost line depth and regulations.
- Additional products and assembly may be required to meet wind code requirements. Notice of acceptance (NOA) can be found at www.miamidade.gov/building/pc-search_app.asp

Contact your local utilities companies.

- You must have the utility companies clearly mark your property for electrical, gas or water lines to avoid puncturing any unseen underground utilities.

TOOLS/MATERIALS NEEDED:

	Post Kits
	Concrete
	Coarse Gravel (6" per hole)
	Post Hole Digger/Shovel
	String Line Stakes with String
	Level
	Tape Measure
	Safety Glasses
	5/16" Drill or Socket Wrench
	2" Spacer Blocks
	Rubber Mallet

INSTALLATION TIPS:

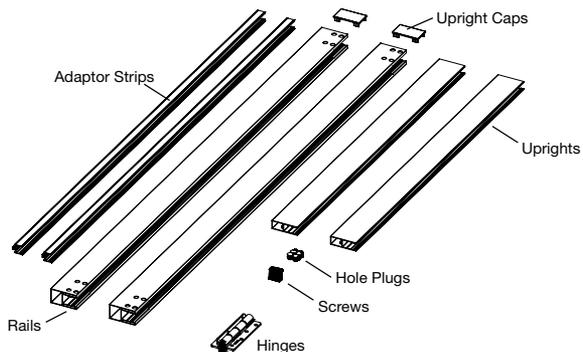

- When installing gate hardware onto gate, it needs to be on level ground
- Review enclosed Boerboel® butterfly hinge instructions before installation
- For measuring, note that gates 6' or larger come with 2" U-frame construction

HOW TO MEASURE:

When measuring for your drive gate, make sure to leave enough space for all gate hardware, including hinges, gate latch and drop rod. When using Boerboel® hardware, leave 1" clearance for all hinges and 1" clearance for a drop rod. Refer to specific hardware instructions for space requirements.

Component list:

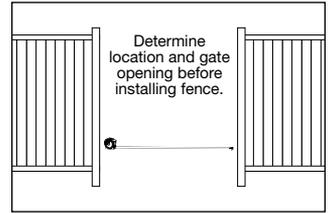

Description
Boards
Rails
Uprights
Adaptor Strips
Upright Caps
Boerboel® Hinges
Hole Plugs
5/16" Screws

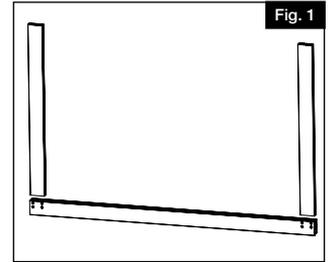

DETERMINE GATE OPENING:

Refer back to "How to Measure"

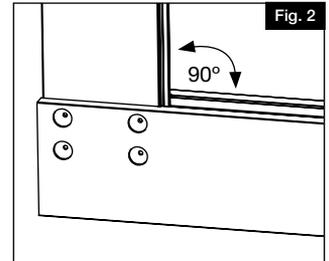

Gate opening is determined by width of gate plus clearance for hinge, latch, and drop rod (latch and drop rod sold separately); refer to latch and drop rod installation instructions for specific space requirements.

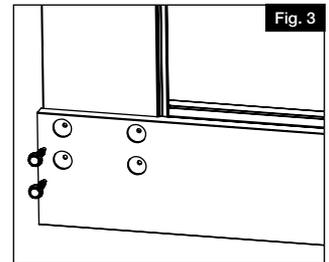

- 1 Place upright rails on side. Slide rails inside uprights (Fig. 1).

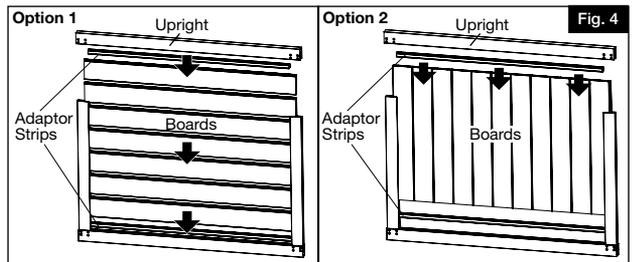

- 2 Align the rails to be 90° to the upright (Fig. 2.)

- 3 Install outside screws (Fig. 3).

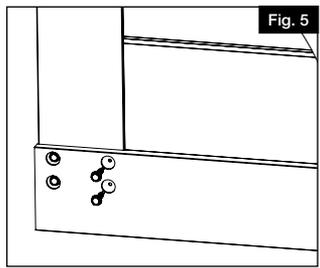

- 4 Install adaptor strip. Install boards. Install opposite adaptor strip. Install remaining upright (Fig. 4)

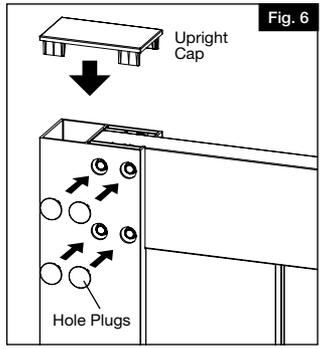

- 5 Repeat Steps 2 & 3 for opposite gate upright.

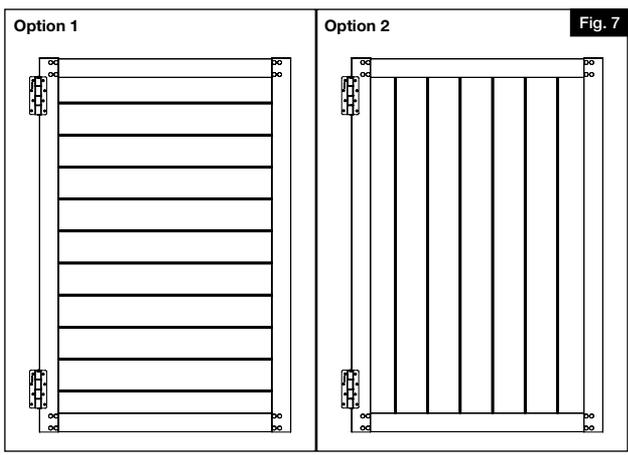

6 Install remaining screws in all four corners (Fig. 5).

7 Install screw hole plugs in all four corners. Install upright caps (Fig. 6).

8 Using the hinge instructions, install the hinges 3½" to 4" away from the top and bottom of the upright (Fig. 7).
