6 Align
Use alignment guide found in parts bag to align glide-frame inside of cabinet.

7 Check
Set the assembled double drawer onto glide-frame with mounting holes aligned.
Check for adequate cabinet and door clearance. Adjust glide frame position as needed.

8 Install
Remove assembled drawers from glide-frame. Move glide rails slightly forward as shown and install glide-frame into cabinet using wood screws found in parts bag.

9 Mount
Set assembled drawers back onto glide-frame with mounting holes in base drawer and glide-frame aligned.
Attach base to glide frame using mounting screws. Only gently tighten.
