# Taylor Display Shelf

## Parts List

Please check packaging for all parts and hardware before discarding. Unpack and lay parts on clean, padded surface like carpet or blanket. Check that you have all parts indicated. Call customer service if hardware is missing.

Before beginning assembly, carefully study the diagrams below and sort your hardware according to the pictures.

Using the incorrect hardware will cause damage.

<b>A</b> <b>Quantity</b> <b>Of 2</b>  Plastic anchor	<b>B</b> <b>Quantity</b> <b>Of 2</b>  Screw	<b>C</b> <b>Quantity</b> <b>Of 1</b>  Shelf
<b>D</b>  <b>Quantity</b> <b>of 1</b> Levels		

### Care and Cleaning Instructions:

Before using, wipe with a clean, dry cloth. Periodically apply furniture wax to renew the finish. Avoid rubbing or scratching the surface with rough or abrasive objects. For replacement parts or questions, please

Call customer service at 1-800-633-5096 for assistance, questions, or parts.

## CAUTION

**Max shelf load capacity is achieved by mounting screw into studs or cement walls.**

If mounting to sheet rock(cavity wall) it is advisable to mount at least 1 screws (without anchor) directly to a wall stud or studs. However do not leave either end of mounting bracket unsupported by at least one anchor. For hollow wall mounting you can use any of the holes in the back plate to suit where you require the mounting screws positioned.

**Note : Pipe bracket has a built in safety design feature. Pipes have a slight upward angle to prevent floating shelf from fogging when shelf is loaded. Weight ratings are E.D.L.(evenly distributed load)**
