

ASSEMBLY AND INSTALLATION INSTRUCTIONS

ED-OWD110

WARNING: BE SURE TO SHUT OFF POWER AT THE MAIN FUSE OR CIRCUIT BREAKER BOX BEFORE INSTALLING OR SERVICING THIS FIXTURE.

**NOTE: 1. Before installing, consult local electrical codes for wiring and grounding requirements.
2. READ AND SAVE THIS INSTRUCTION.**

1. Thread two headless screws through the holes in the top side of the mounting plate, then secure them with four lock nuts (two on each side of the mounting plate). Adjust the length of the headless screws if necessary.
2. Thread two screws through the holes in the bottom side of the mounting plate, then secure them with other two lock nuts. Adjust the length of the screws if necessary.
3. Mark the wall where you want to place the mounting plate setting holes, drill holes in the markers on the wall, then thread the anchors into the holes.
4. Attach the mounting plate to the outlet box by using two mounting screws and secure the dry wall screws through the set holes of the mounting plate into the anchors.
5. Pull out the outlet wires and house grounding wire from the outlet box. Make wire connections using the wire nuts:
 - The black wire from the fixture to the black wire from the power source.
 - The white wire from the fixture to the white wire from the power source.
 - Attach the fixture grounding wire to the mounting plate with the green grounding screw. Then connect it to the house grounding wire with a wire nut.Carefully tuck the wires back into the outlet box.
6. Attach the back plate to the mounting plate by inserting the headless screws and screws, then secure it with bolt nuts.
7. Attach the candle tubes onto the sockets, then install bulbs (not included). See relamping label at socket area or packaging for maximum allowed wattage.
8. Turn on the power at the main fuse or circuit breaker box.
