ASSEMBLY INSTRUCTIONS

5. Strip 3/4 in. of insulation from fixture wire ends. Twist ends together with pliers (not included), black to black and white to white. Use non-insulated wire connectors (BB) and wires together with electrical tape to secure connections.

4. Remove secure nuts (E) and washers (C) from the wall plate. Then, attach the wall plate (D) to the outlet box (F), securing with previously removed washers (C) and cap nuts (D). Wrap the ground wire from the outlet box around the ground screw on the wall plate, then connect the ground wire of the fixture to the ground screw on the wall plate and wall. If the outlet box doesn’t have a ground connector, you can attach the ground wire from the fixture directly to the green screw on the crossbar (A).

3. Faulty switch.

2. Power is off.

1. Make sure power supply is on.

CAUTION
• Use flashlight or alternate light source to light work area during installation.
• Wear gloves when handling the parts.
• Some metal parts in the fixture may have sharp edges.

WARNING
• Use only UL listed components.
• Use only 120 volt fixture.
• Use only non-lead based materials.

Tools Required for Assembly (not included): Flathead screwdriver, Phillips screwdriver, Pliers, Wire cutters, Electrical tape, Safety goggles, Masking and Silicone sealing.

**PREPARATION**
– Consult the dealer or an experienced radio/TV technician for help.
– Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
– Reorient or relocate the receiving antenna.
– If these measures do not correct the problem, contact the dealer or an experienced radio/TV technician for help.

**INTERFERENCE**
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**SAFETY INFORMATION**

- Connect fixture to supply wires rated for at least 167˚F.
- Do not install fixture on a metal wall with exposed metal edges.
- If the outlet box doesn’t have a ground connector, you can attach the ground wire from the fixture directly to the green screw on the crossbar (A).
- Secure the cap nuts (D) and remove washers (C) from the wall plate and wall.
- If the outlet box doesn’t have a ground connector, you can attach the ground wire from the fixture directly to the green screw on the crossbar (A).

- Do not use abrasive cleansers.
- Do not install fixture on a metal wall with exposed metal edges.
- Do not use vinegar or lemon juice to clean light. Both materials can cause permanent damage to light finish.
- Shut off main power before cleaning light with damp cloth or window cleaner.

**WARRANTY**

The manufacturer will, at its option, repair, replace or refund the original purchase price to the consumer. This warranty does not cover fixtures becoming defective due to misuse, accidental damage, improper handling and/or installation and specifically excludes liability for direct, indirect, incidental or consequential damages. As some states do not allow exclusions or limitations on an implied warranty of merchantability, the above limitations or exclusions may not apply to you.

In the event a fixture becomes defective in material or workmanship, the product must be returned, with a copy of the original sales receipt as proof of purchase, in the original carton, to the place of purchase.

**REPLACEMENT PARTS LIST**

For replacement parts, call our customer service department at 1-800-643-0067, 8 a.m. - 6 p.m., EST, Monday - Thursday, 8 a.m. - 5 p.m., EST, Friday.
