Please read and understand this entire manual before attempting to assemble, operate or install

WARNING • Some metal parts in the fixture may have sharp edges. To prevent cuts and scrapes, wear gloves when handling the parts.

Account for small parts and destroy packing material, as these may be hazardous to children

• Use flashlight or alternate light source to light work area during installation. • Assistance may be required to support fixture during installation.

• DO NOT touch the LED model/parts at anytime as this may cause damage to the fixture.

• Connect fixture to supply wires rated for at least 167°F.

Use only the supplied LED driver to power fixture.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

PREPARATION

SAFETY INFORMATION

Before beginning installation of product, make sure all parts are present. Compare parts with package contents list and hardware contents list. If any part is missing or damaged, do not attempt to assemble, install or operate the product.

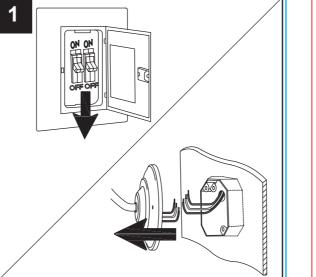

Estimated Assembly Time: 15 - 20 minutes

Tools Required for Assembly (not included): Flathead screwdriver, Phillips screwdriver, Pliers, Wire cutters, Electrical tape, Safety goggles, Step ladder and Silicone caulking.

Helpful Tools (not included): Wire stripper, Level.

ASSEMBLY INSTRUCTIONS

1. Turn off power at circuit breaker or fuse panel. Remove old fixture. Disconnect wiring.

ASSEMBLY INSTRUCTIONS

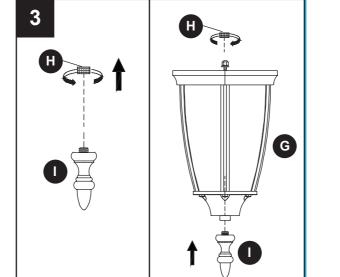

2. Unscrew the cap nuts (D) and remove washers (C) from mounting screws (B). Save for later use.

Separate the crossbar (A) from wall plate of fixture body (F). Then, attach the crossbar (A) to outlet box (not included) using outlet box screws (AA). Note: The mounting screws (B) should protrude out from the outlet box.

Hardware Used

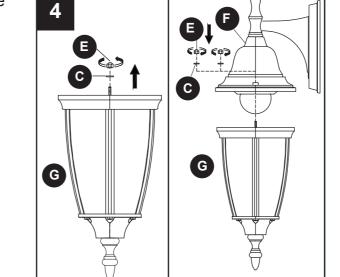

AA Outlet Box Screw

4. Remove secure nuts (E) and washers (C) from the top of shade (G). Attach the shade (G) to fixture body (F), securing

with washers (C) and secure nuts (E).

ASSEMBLY INSTRUCTIONS

stripped ends together with pliers (not included), black to black (power), white to white (neutral). Snip ends. Wrap the ground wire from the outlet box around the green screw preassembled on the crossbar (A), and then connect the ground wire from the outlet box to the ground wire from the fixture.

Helpful hint: If the outlet box doesn't have a ground wire, you can attach the ground wire from the fixture directly to the green screw on the crossbar (A).

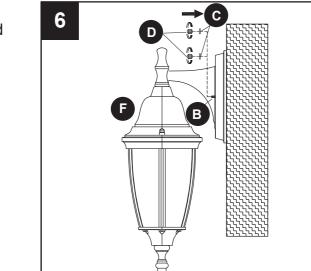

Attach wire connectors (BB) to ends. Tape wire connectors (BB) and wires together with electrical tape (not included).

Hardware Used

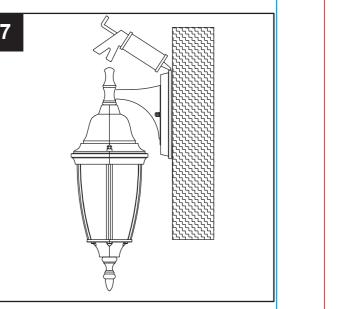

drain out.

BB Wire Connector

6. Place fixture body (F) onto mounting screws (B). Secure with previously removed washers (C) and cap nuts (D).

7. Use silicone caulk (not included) to seal between wall plate and wall. **CAUTION:** Leave bottom unsealed so moisture can
