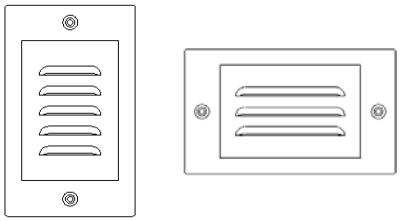
LED MINI STEP LIGHT



IMPORTANT SAFETY INFORMATION
FOR YOUR PROTECTION, READ CAREFULLY

1) **WARNING: RISK OF SHOCK**
Electric current can cause serious injury unless handled properly. For your safety always remember to:
-Turn off the power supply at the fuse or circuit breaker box before you install the fixture.
-Turn off the power supply again when you change lamps or perform other maintenance.
-Ground the fixture to avoid potential electric shocks and to ensure reliable starting.
-Double check all connections to be sure they are all tight and correct.
-Wear rubber-soled shoes and work on a sturdy wooden ladder.

2) This fixture is designed for use in a circuit protected by a fuse or circuit breaker. It is also designed to be installed in accordance with local electrical codes. If you are unsure about the wiring, consult a qualified electrician and check your local electrical code.

3) Account for small parts and destroy packing material, as these may be hazardous to children.

4) **WARNING: RISK OF FIRE**
Wire must be suitable for at least 60°C . Consult a qualified electrician before installing.

5) Installation environment : suitable for wet location **(caulking around the face plate is required)**, able to install inside power box of shelter, indoors or outdoors.

6) Installation postion : install within1.2m (4ft) of the ground.

7) **This unit is to be used at AC120V 60Hz power supply only.**

8) Make sure the louver always faces down when installing this fixture.
