

EVERY YEAR 70,000 tons of harmful pollutants emit from 38 MILLION wood-burning fireplaces.

Earth's Flame™ reduces pollutants up to 78%

There are benefits to the Earth's Flame™ system in terms of avoiding greenhouse gas emissions, having a healthy house for children, and being economical to use. If what you want is the beauty of a wood fire, a fireplace that keeps indoor air healthier and emits less pollution to the environment, and one that warms you up when you sit in front of it, this is the choice for you. It is better for the environment than other options, but gives you the joy of a real wood fire. As an Earth's Flame user I think this is a great answer for guilt-free fireplace use for environmentally concerned homeowners.

**Steven Kolmes**  
Molter Chair in Science  
Chair of the Environmental Science Department  
University of Portland, Portland, Oregon

7.2 tons of fireplace particulate emissions will be eliminated for every 1,000 fireplaces using EARTH'S FLAME™.

- Test results as low as 2.7 g/kg
- Below the proposed phase 2 emissions level of the EPA's Voluntary Wood-Burning Fireplace Program.

**THE GOAL of OUR 55 year old family business is to, Protect your family... while protecting the environment.**

# CHANGE WOOD-BURNING FIREPLACES

Replace your fireplace grate with the **NEW HYBRID CLEAN BURN**

*for Factory Built & Masonry  
Wood-Burning Fireplaces*

**INCREASES Radiant Heat  
from your fireplace  
up to 115%**

***Feel the warmth!***

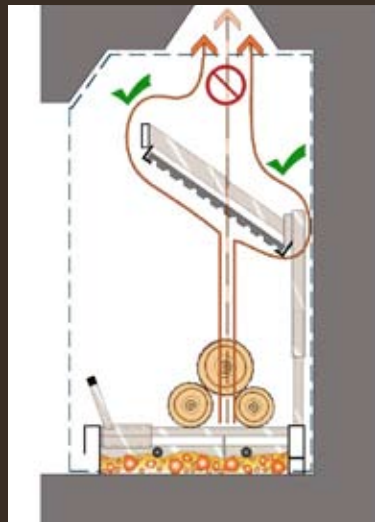

***Fast, clean burning,  
vibrant fires!***

- Gas enhanced combustion system
- Unique emissions reducing technology
- Improves the 3 T's of good combustion

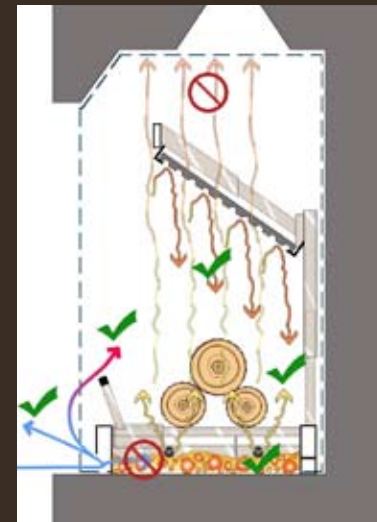

- Easy to install
- No maintenance
- No catalyst or other parts to replace
- 304 Stainless Steel Construction
- Adjustable Height and depth

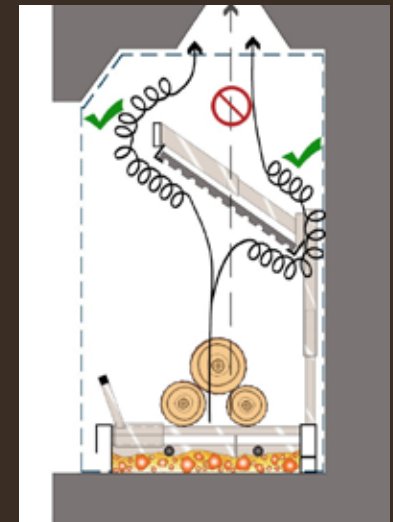

**TIME**

**TEMPERATURE**

**TURBULENCE**

- **INCREASES** fireplace draft by 76%
- **IMPROVES** indoor air quality
- **REDUCES** health risks associated with the inhaling wood smoke

***Changing the environment &  
improving the air we breathe,  
one fireplace at a time.***

**THE INDUSTRY HAS SPOKEN!**

**WINNER  
of the 2010  
GREEN AWARD**

**HONORED FOR ITS:**  
Innovation in Design & Technology  
for reducing emissions in wood-  
burning fireplaces.

Includes Blue Flame™  
CSA certified Log Lighter #248402  
For Natural Gas

The operating cost of natural gas,  
using Earth's Flame™ is 31 cents  
per hour.
