gaf.com

Now, when you install any GAF Lifetime Shingle and at least 3 qualifying GAF accessories, you'll automatically get:

- A Lifetime Ltd. warranty on your shingles and all qualifying GAF accessories!*
- Non-prorated coverage for the first 10 years!*

LIFETIME SHINGLES

GAF offers you many great Lifetime Shingle choices, including Timberline® Shingles with Advanced Protection® Technology. They're the #1-selling shingles in North America!

Advanced Protection® Technology results in superior protection for your home, while reducing the use of precious natural resources. That's better for your home—and better for the environment!

To learn more about why Advanced Protection® Shingles are your best choice, visit www.gaf.com/aps.

In the North, building codes require the use of Leak Barrier at the eaves.

Roof Deck Protection

Allows moisture to escape from your attic while providing an exceptionally strong layer of protection against wind-driven rain. Also, lays flatter for a better-looking roof.

Leak Barrier

Provides exceptional protection against leaks caused by roof settling and extreme weather. Ideal upgrade at all vulnerable areas (including at the eaves in the North!).

Starter Strip Shingles

Saves time, eliminates waste, and reduces the risk of blow-off... and may even help qualify for upgraded wind warranty coverage (see GAF Shingle & Accessory Ltd. Warranty* for details).

Cobra® Attic Ventilation

Helps remove excess heat and moisture from your attic that can raise your energy bills, cause premature peeling of interior paint and wallpaper, and even affect your health.

Ridge Cap Shingles

Enhances the beauty and value of your home—while guarding against leaks at the hips and ridges.

GAF Proudly Sponsors "The All-American Home" Campaign www.theallamericanhome.com

The GAF Lifetime Roofing System has earned the prestigious Good Housekeeping Seal, which means that Good Housekeeping stands behind the products in this system. (Refer to Good Housekeeping Magazine for its consumer protection policy.)

*See GAF Shingle & Accessory Ltd. Warranty for complete coverage and restrictions. The word "Lifetime" means as long as the original individual owner(s) of a single family detached residence (or the second owner(s) in certain circumstances) owns the property where the shingles and accessories are installed. For owners/structures not meeting above criteria, Lifetime coverage is not applicable. Lifetime Ltd. warranty on accessories requires the use of at least three qualifying GAF accessories and the use of Lifetime Shingles.

Get potential insurance savings and maximum protection for your

GAF offers two great Impact-Resistant Shingles: Timberline® ArmorShield™ II and Grand Sequoia® IR. They provide the best combination of protection, beauty, and potential insurance savings for your home.

Made with our proprietary SBS modified asphalt formulation, our IR shingles pass the industry's toughest impact-resistance test: UL 2218 Class 4. They also offer:

Potential Insurance Savings... The shingles in this catalog pass the UL 2218 Class 4 Impact Test, and may qualify for insurance discounts of 5–30% or more (check with your insurance agent). Each shingle is labeled with special information needed to qualify for premium discounts according to the requirements of the Texas Department of Insurance—a standard that most hail insurers accept.

Superior Wind Performance... Meet Class F wind rating from Underwriters Laboratories—the highest rating possible. Dura Grip™ Adhesive seals each shingle tightly and reduces the risk of shingle blow-off. Shingles warranted to withstand maximum wind gusts of up to 130 mph!*

Impact Resistant... Pass UL 2218 Class 4, UL's toughest impact test (shingles show no evidence of cracks or ruptures on front or back of shingle immediately after impact). Compare to "standard" shingles, which may have ruptures or cracks visible on the front or back of the shingle immediately after large hail impact.

Exceptional Protection... Design includes an SBS modified asphalt formula for rubber-like flexibility and maximum impact resistance.

High Performance... Designed with Advanced Protection® Technology, which minimizes the use of natural resources while providing superior protection (visit www.gaf.com/aps to learn more).

Safer... Class A fire rating from Underwriters Laboratories—the highest

Grand Sequoia® IR Shingles
in Weathered Wood

most valuable asset!

rating possible (unlike most wood shakes with a Class C fire rating).

StainGuard® Protection... Helps protect the beauty of your roof from unsightly blue-green algae.**

Peace Of Mind... Lifetime Ltd. transferable warranty with Smart Choice® Protection (non-prorated material and installation labor coverage) for the first ten years.**

Ridge Cap Shingles... For maximum insurance savings, use our Seal-A-Ridge® IR, UL 2218 Class 4 Ridge Cap Shingles (for use with Grand Sequoia® IR Shingles only) or Seal-A-Ridge® ArmorShield™, UL 2218 Class 4 Ridge Cap Shingles (for use with Timberline® ArmorShield™ II Shingles only). They're also a unique color match to GAF Impact-Resistant Shingles.

GAF IR shingles meet the highest impact-resistance rating...

The UL 2218 Impact Test was developed in conjunction with insurance industry leaders. It's based on dropping a 2" steel ball from 20' onto the top of a shingle to see whether the shingle cracks. GAF IR Shingles pass Class 4 (see illustration below)—the highest rating possible. Check with your insurance agent about potential savings on your homeowners insurance.

What you should also know about the UL 2218 impact test:

- **Forceful Impact...** The test simulates hailstorms impacting a roof at a speed of over 70 mph!
- **Potential Leaks...** Shingles that fail the impact test are more likely to allow water to leak into your home.
- **No warranty improvement...** GAF's warranty does not cover hail damage even for shingles that pass this test.

*This wind coverage requires special installation; see *GAF Shingle & Accessory Ltd. Warranty* for details.

**See *GAF Shingle & Accessory Ltd. Warranty* for complete coverage and restrictions. The word "Lifetime" means as long as the original individual owner(s) of a single family detached residence (or the second owner(s) in certain circumstances) owns the property where the shingles and accessories are installed. For owners/structures not meeting above criteria, Lifetime coverage is not applicable. Lifetime Ltd. warranty on accessories requires the use of at least three qualifying GAF accessories and the use of Lifetime Shingles.

Timberline® ArmorShield™ II Shingles offer extra protection with the beauty of Timberline® —all in one shingle!

Timberline® ArmorShield™ II Impact-Resistant Shingles combine the beauty of Timberline® (North America's #1-selling shingle) with UL 2218 Class 4 Impact Resistance. Their beauty is unlike any others, thanks to our patented High Definition® shadow bands (U.S. Patent No. 5,666,776). Each shadow band is applied using a sophisticated, computer-controlled "feathering" technique. When combined with our randomly blended top layer, it results in a shingle with exceptional depth and dimension—and a striking look unmatched by any other brand.

But don't just take our word for it. See for yourself. When you compare Timberline® ArmorShield™ II Shingles to typical architectural shingles, it's easy to see why they'll look sharper and more beautiful on your roof—while enhancing the resale value of your home.

Unique Specifications...

Grand Sequoia® IR Shingles combine the look of rugged wood shakes with the protection of an impact-resistant shingle!

For a rugged wood-shake look, consider Grand Sequoia® IR Shingles. They are a fraction of the cost of traditional slate, wood shakes, or expensive metal roofing and they pass UL 2218 Class 4 Impact Testing.

Grand Sequoia® IR Shingles feature artisan-crafted shapes combined with oversized tabs and a dimensional design, resulting in a sophisticated beauty unmatched by typical shingles. Their specially formulated color palette is designed to accentuate the shingle's natural appeal.
