the plug.

SAVE THESE INSTRUCTIONS

WARNING

When using outdoor-use portable lighting products, basic safety precautions should always be followed to reduce the risk of fire, electric shock and personal injury, including the following:

- Ground Fault Circuit Interrupter (GFCI) protection should be provided on the circuits or outlet to be used for the outdoor-use flexible lighting product. Receptacles are available having built-in GFCI protection for this measure of safety.
- Use only outdoor extension cords, such as type SW, SON, STW, STOW, SJW, SJOW, SJTW, or SJTWO. This designation is marked on the wire of the extension cord.

CAUTION

- Risk of electric shock. Do not use with extension cord near water or where water may accumulate. For use only on GFCI protected circuits.
- Material may become brittle when cold. Do not install where it may be stepped on or subject to physical damage.
- Do not cover flexible lighting; as the covering may cause the flexible light to overheat and melt or ignite.
- Always unplug this product before installing or replacing fuses.
- Do not overlap. This product's length is 12 feet. Do not connect together more than 300 total feet.
- Risk of fire or electric shock. Use only the flexible light extension segments specified in the manufacturer's instructions.

PREPARATION

Before beginning assembly of product, make sure all parts are present. Compare parts with packaging contents list and hardware contents list. If any part is missing or damaged, do not attempt to assemble the product.

Estimated Assembly Time: 30 minutes

Tools Required for Assembly (not included): Phillips screwdriver, safety glasses, wire cutters. Helpful Tools (not included): soft cloth, step ladder.

ASSEMBLY INSTRUCTIONS

- Carefully remove all the parts from the packaging, and lay them out on the floor or other large, smooth workspace. Remove all packing material and uncoil the rope light. Be careful not to cut or nick the Rope Light (A).
