

21.5 Inch Square Charcoal Grill

Model # OCFLA-2150

OUTDOOR USE ONLY! NEVER USE INDOORS!

⚠️ CARBON MONOXIDE HAZARD ⚠️

Burning charcoal inside may be fatal. It gives off carbon monoxide, which has no odor. NEVER burn charcoal in enclosed spaces.

Read and follow all of the manufacturer instructions before beginning assembly or operation. Failure to do so could result in fire, burns, or other serious personal injury.

Keep this owner's manual for future reference. If you sell or give this product to someone else, make sure this manual accompanies this product.

Model #OCFLA-2150

IMPORTANT SAFETY INFORMATION

DANGER

Failure to follow the dangers, warnings, and cautions in this manual may result in serious bodily injury, or death, as well as property damage due to a fire or explosion.

WARNING

CALIFORNIA PROPOSITION 65

- Combustible by-products produced when using this product contain chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm.
- This product contains chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm.

Always wash your hands after handling this product!

Safe Grill Placement

WARNING

- This grill is for OUTDOOR USE ONLY! NEVER use this grill in an enclosed area or under an overhead cover of any kind, including a tent, patio cover, or any other building or structure.
- DO NOT use this grill within 10 feet of any combustible material, including, but not limited to shrubbery, trees, wood or treated wood decks, fences, patios, porches, walls, vehicles, and any flammable liquid.
- ONLY use this grill on a hard, level, non-combustible, stable surface, such as, concrete that is able to support the weight of the grill. NEVER use on wood or other combustible surfaces.
- NEVER use this grill where children or pets could come into contact with the grill.
- For residential use only! NOT for commercial use! DO NOT use this grill for other than its intended purpose. Any commercial use voids all warranties.

Grill Preparation Safety

WARNING

- DO NOT use this grill without the ash catcher (if available), ash pan, or ash tray in place.
- DO NOT use this grill unless all parts are in working condition and properly installed.

Charcoal Lighting Safety

WARNING

- We recommend a charcoal chimney starter to avoid the dangers of charcoal starter fluid. ALWAYS read and follow the chimney starter manufacturer's instructions and warnings.
- If you use charcoal starter fluid, ONLY use starter fluid approved for lighting charcoal.
- NEVER use gasoline, alcohol, kerosene, or any other highly flammable liquid. Use of any of these or similar products could cause an explosion, possibly leading to severe bodily injury.
- Carefully read the charcoal and starter fluid manufacturer's warnings and instructions before using this grill. Failure to do so could result in serious injury.
- ALWAYS clean up any starter fluid spills before lighting charcoal.
- ALWAYS allow charcoal starter fluid to completely burn off prior to closing the grill lid. Failure to do so could trap fumes in the grill and might result in a flash fire or explosion when the lid is opened.
- NEVER add charcoal starter fluid to hot or warm coals. Flare ups could occur and cause burns.
- ALWAYS store charcoal starter fluid safely away from grill. DO NOT store starter fluid or other flammable liquids or materials under the grill.

Grill Use Safety

WARNING

- DO NOT use the grill in windy conditions.
- NEVER leave a hot grill unattended.

Model # OCFLA-2150

- Grill is hot when in use. To avoid burns:
 - DO NOT attempt to move the grill while lit or still hot.
 - ALWAYS wear protective gloves or oven mitts.
 - DO NOT TOUCH any hot grill surfaces.
- DO NOT wear loose clothing or allow hair to come into contact with grill.
- NEVER add pre-soaked charcoal to hot or warm coals or ashes. Dangerous or explosive flare ups could occur and result in bodily harm.
- USE EXTREME CAUTION when adding charcoal and/or wood to the grill while cooking, as charcoal is still hot and can cause burns.
- AVOID INJURY! ALWAYS wear oven mitts or grilling gloves when lifting the lid, adjusting the grates, or in any other way touching the grill while it is hot.
- Lids are heavy, and will be very hot during and after use.
 - Removable Lid: NEVER set hot lid on grass, furniture, deck or combustible materials.
 - Hinged Lid: ALWAYS open lid completely and secure to prevent unexpected closing.
- Some grills have shelves. NEVER place more than 8 pounds on any shelf. DO NOT lean on any shelf.
- When grilling, grease from food may drip onto the charcoal and cause a grease fire. If this happens close the lid and air vents to suffocate the flame. NEVER use water to extinguish a grease fire.
- Keep hands, face, and body a safe distance from the grill when opening the lid. Flare ups may occur when flames or hot coals encounter increased airflow.
- NEVER try to remove the ash catcher (if available) while coals are hot. Doing so could cause burns.
- DO NOT use the locking latch when the grill is in use or hot. Only use the locking latch when the fuel supply is turned off and the grill is completely cooled.

After Use Safety

WARNING

- ALWAYS allow grill and all components to cool completely before handling.
- DO NOT remove ashes or used coals from the grill until they are fully extinguished.
- To extinguish charcoal, close all vents and place lid on grill until coals are completely out.
- NEVER leave coals and ash unattended in the grill. All extinguished coals and ash must be removed and carefully placed in a non-combustible metal container. Saturate coals and ash with water and allow them to remain in the metal container for 24 hours before disposing.
- Keep extinguished coals and ash safely away from combustible structures and materials.
- Spray or douse the surfaces under and around the grill with water until completely wet to extinguish any ashes, coals, or embers that may have fallen during grilling or cleaning.
- Store the grill in a dry location out of reach of children and pets when not in use.

Preparation

- DO NOT RETURN PRODUCT TO STORE
 - For assistance, please email customerservice@sanxint.com or call **855-328-4769**.
Please have your owner’s manual and model number available for reference.
- This grill is pre-assembled. Please make sure there are no loose parts before discarding any packaging materials. If any parts were omitted please contact us for replacement parts.
- For set-up and assembly please follow the Assembly Instructions on the next pages.
- Dispose of all packaging materials properly. Please recycle whenever possible.

Assembly Instructions

Step 1

Make sure that all parts are provided and all hardware is in place. For ease of assembly, please have two people during assembly.

Step 2

Rotate the leg assembly away from the grill body.

Step 3

Open the legs by pulling the stationary legs to the front and wheel leg to the back of the grill.

Step 4

Extend all four telescoping legs by pushing in the spring button and extending each leg to its fully assembled position. When the legs are fully extended the spring button will lock into position.

Make sure all hardware is tightened at this time.

Model #OCFLA-2150

Step 5

Place the charcoal grid in the bottom of the fire bowl.
Place the cooking grid on the top edge of the fire bowl.

Fold Grill

Unfold Grill

Care & Maintenance

- Wash cooking grids and charcoal grates with hot, soapy water. Rinse well and dry completely with a towel to prevent rusting.
- After washing and drying, lightly coat grids with vegetable oil or vegetable oil spray.
- Clean the inside and outside of the grill by wiping it with a damp cloth. Apply a light coat of vegetable oil or vegetable oil spray to the interior surfaces to prevent rusting, but not on the charcoal grate.
- If rust appears on the outside of your grill, clean and buff the affected area with steel wool or a fine grit emery cloth. Touch up spots with a good quality high-temperature rust resistant paint.
- NEVER APPLY PAINT TO THE INTERIOR SURFACE. Doing so could cause a fire resulting in serious bodily harm or property damage.
- If rust appears on the interior surface of you grill, clean and buff the affected area with steel wool or a fine grit emery cloth. Coat the interior lightly with vegetable oil or vegetable oil spray.

Operating Instructions

Only use high grade charcoal briquettes, lump charcoal, cooking wood or charcoal/wood mixtures.

Wood chips and wood chunks may be used for a more robust flavor. Wood chips are available in a variety of flavors.

First Use

- Please make sure all labels, packaging and protective films have been removed from the charcoal grill.
- Remove manufacturing oils before cooking on this charcoal grill for the first time. Do this by operating the charcoal grill for at least 15 minutes with the lid closed, prior to adding food. This will “heat clean” the internal parts and dissipate odors.

Lighting Instructions

- Stack charcoal briquettes or wood into a pyramid-shaped pile on top of the charcoal grate. We recommend using 2 pounds (approximately 30 briquettes) to start your fire, adding more as needed.
- If using starter fluid, saturate the charcoal briquettes with starter fluid and let it soak in for approximately 5 minutes. If using a chimney starter, electric starter, or other type of fire starter, light your fire according to the manufacturer’s instructions.
- After allowing the starter fluid to properly soak in, light the pile of briquettes in several locations to ensure an even burn. Leave lid open until briquettes are fully lit. Failure to do so could trap fumes from charcoal starter fluid in grill and may result in a flash fire when lid is opened.

Lighting Instructions (continued)

- Never add charcoal starter fluid to hot or warm coals as flashbacks may occur causing injury.
- You are ready to begin cooking when the pile of briquettes ashes over and produces a red glow (approximately 10-15 minutes).
- Depending on your cooking method, either leave the briquettes in a pile or spread evenly across the charcoal grate using a long handle tool. ALWAYS use caution when handling hot coals.

Direct Grilling

Grilling directly over hot coals is ideal for searing in juices and grilling food requiring less than 25 minutes of grilling time, such as steaks, hamburgers, hot dogs, chicken parts, vegetables and fruit.

- Open the lid and remove cooking grid.
- Load and light charcoal per “Lighting Instructions” section.
- While wearing hand protection, carefully spread hot coals evenly across charcoal grid with a long handle tool.
- While wearing hand protection replace the cooking grid, close the lid and allow the charcoal grill to preheat.
- While wearing hand protection open the lid and place food onto cooking grids directly above the hot coals with a long handle tool.
- With lid open or closed, cook until desired internal food temperatures are achieved.
- When finished, allow charcoal to burn out by closing lid and all vents.

For more tips on Direct Grilling, please see “Tips for Better Cookouts and Longer Grill Life” section.

Indirect Grilling

Not cooking directly over hot coals is ideal for slow cooking and grilling foods requiring more than 25 minutes such as most roasts, loins, chops, whole chickens, turkey, fish and baked goods.

- Open Lid and remove cooking grid.
- Load and light charcoal per “Lighting Instructions” section.
- While wearing hand protection, carefully spread hot coals to the outside of charcoal grid with a long handle tool.
- While wearing hand protection, replace cooking grid, close lid and allow charcoal grill to preheat.
- While wearing hand protection open the lid. Use a long handled tool to place the food onto the cooking grids above the area without hot coals.
- With lid closed, cook until desired internal food temperatures are achieved.
- When finished, allow charcoal to burn out by closing lid and all vents.

For more tips on Indirect Grilling, please see “Tips for Better Cookouts and Longer Grill Life” section.

Controlling Flare-ups

Flare-ups are a part of cooking meats on a charcoal grill and adds to the unique flavor of grilling.

Excessive flare-ups can over cook your food and cause a dangerous situation for you and your charcoal grill. Excessive flare-ups are result from the build-up of grease in the bottom of your charcoal grill.

If grease fire occurs, close the lid until the grease burns out. Use caution when opening the lid as sudden flare-ups may occur.

If excessive flare-ups occur, DO NOT pour water onto the flames.

Minimize Flare-ups

- Trim excess fat from meats prior to cooking.
- Cook high fat content meats indirectly.
- Ensure that your charcoal grill is on a hard, level, non-combustible surface.

Tips for Better Cookouts and Longer Grill Life

- To reduce flare-ups keep the charcoal grill clean, use lean cuts of meat (or trim fat) and avoid cooking on very high temperatures.
- Place delicate foods like fish and vegetables in aluminum foil pouches and indirect grill or place on upper cooking levels (warming rack), if available.
- To avoid losing natural juices, use long handled tongs or spatulas instead of forks and turn foods over just once during cooking.
- When indirect grilling roasts and larger cuts of meat, place meat onto a roasting rack inside a heavy gauge metal pan.
- Try water pans to reduce flare-ups and cook juicier meats. Before starting coals remove cooking grids and place a heavy duty shallow pan directly on charcoal grid. Fill half way with water, fruit juices or other flavored liquids. Place coals around grid per "Lighting Instructions", replace cooking grids and position food over the loaded pan.
- Enhance food flavors by using wood chips in smoker boxes or aluminum foil pouches. Follow the wood manufacturer's instructions.
- Rotisseries, charcoal grill baskets, vertical poultry holders and other accessories can enhance your experiences, reduce cooking times and aid in clean up.
- Clean cooking grids and racks after every use with a quality charcoal grill brush designed for your grid material. Wear protective hand gear and gently remove the build-up while grids are hot.
- Allow charcoal grill to fully cool after every use. Then protect clean cooking grids with a light coat of vegetable oil or vegetable spray, clean out all ashes, wipe outside surfaces with a suitable kitchen cleaner and protect surfaces with a quality cover that properly fits your grill.

Cleaning & Care

CAUTION! All cleaning and maintenance should be done when charcoal grill is cool and with the fuel supply removed.

Notices

- Abrasive cleaners will damage this product.
- Never use oven cleaner to clean any part of this charcoal grill.

Cleaning Surfaces

- Wipe surfaces clean with mild dishwashing detergent or baking soda.
- For stubborn surfaces use a citrus based degreaser and a nylon scrubbing brush.
- Rinse clean with water and dry immediately.

Tips

- Keep charcoal grill covered when not in use to help prevent rust.
- Applying a light coat of vegetable oil or vegetable spray to the interior surfaces of the charcoal grill can help prevent rust. DO NOT coat charcoal grate or bottom of bowl.

Model #OCFLA-2150

Limited Warranty

Bazhou Sanxin Steel Pipe Co., Ltd. (Sanxin) warrants to original retail purchaser of this product, and to no other person, that if this product is assembled and operated in accordance with the printed instructions accompanying it, then for a period of one (1) year from the date of purchase, all parts in such product shall be free from defects in material and workmanship. Sanxin Co. may require reasonable proof of your date of purchase. Therefore, you should retain your sales slip or invoice. This Limited Warranty shall be limited to the repair or replacement of parts, which prove defective under normal use and service and which Sanxin Co. shall determine in its reasonable discretion upon examination to be defective. Before returning any parts, you should contact Sanxin Co.'s Customer Service Department using the contact information listed below. If Sanxin Co. confirms, after examination, a defect covered by this Limited Warranty in any returned part, and if Sanxin Co. approves the claim, Sanxin Co. will replace such defective part without charge. If you return defective parts, transportation charges must be prepaid by you. Sanxin Co. will return replacement parts to the original retail purchaser, freight or postage prepaid.

This Limited Warranty does not cover any failures or operating difficulties due to accident, abuse, misuse, alteration, misapplication, improper installation or improper maintenance or service by you or any third party, or failure to perform normal and routine maintenance on the product as set out in this owner's manual. In addition, the Limited Warranty does not cover damage to the finish, such as scratches, dents, discoloration, rust or other weather damage, after purchase.

Thank you for purchasing this charcoal grill!
