Thanks for buying a BISSELL Steam Mop

We're glad you purchased a BISSELL Steam Mop. Everything we know about floor care went into the design and construction of this complete, high-tech home cleaning system.

Your Steam Mop is well made, and we back it with a limited one-year warranty. We also stand behind it with a knowledgeable, dedicated Consumer Services department, so, should you ever have a problem, you'll receive fast, considerate assistance.

My great-grandfather invented the floor sweeper in 1876. Today, BISSELL is a global leader in the design, manufacture, and service of high quality homecare products like your Steam Mop .

Thanks again, from all of us at BISSELL.

Mark J. Bissell
President and Chief Executive Officer

IMPORTANT SAFETY INSTRUCTIONS

When using an electrical appliance, basic precautions should be observed, including the following:

Read all instructions before using your STEAM MOP™

⚠ WARNING: To reduce the risk of fire, electric shock, or injury:

- Do not direct steam at people, animals, or at electrical outlets.
- Do not expose to rain.
- Store indoors.
- Unplug from outlet when not in use and before conducting maintenance or troubleshooting.
- Do not leave steam cleaner unattended.
- Do not leave the steam cleaner connected to an electrical outlet when not in use.
- Do not service steam cleaner when it is plugged in.
- Do not use with damaged cord or plug.
- Do not use steam cleaner if it has been dropped, damaged, left outdoors or dropped into water, return it to a service center.
- Do not handle steam cleaner with wet hands.
- Do not pull or carry by cord, use cord as a handle, close door on cord, pull cord around sharp corners or edges, or expose cord to heated surfaces.
- Do not unplug by pulling on cord.
- Do not use appliance in an enclosed space filled with vapor given off by oil-base paint, paint thinner, some moth proofing substances, flammable dust, or other explosive or toxic vapors.
- Do not allow to be used as a toy.
- Do not use on leather, wax polished furniture or floors, synthetic fabrics, velvet or other delicate, steam-sensitive materials.
- Do not immerse.
- Do not use for any purpose other than described in this User's Guide.
- Use only manufacturer's recommended attachments - use of attachments not provided or sold by BISSELL may cause fire, electric shock or injury.
- Never put descaling, aromatic, alcoholic or detergent products into the steam cleaner, as this may damage it or make it unsafe for use.
- Unplug by grasping the plug, not the cord.
- Close attention is necessary when used by or near children.

SAVE THESE INSTRUCTIONS

Commercial use of this unit void the manufacturer's warranty.

GROUNDING INSTRUCTIONS

This appliance must be connected to a grounded wiring system. If it should malfunction or break down, grounding provides a safe path of least resistance for electrical current, reducing the risk of electrical shock. The cord for this appliance has an equipment-grounding conductor and a grounding plug. It must only be plugged into an outlet that is properly installed and grounded in accordance with all local codes and ordinances.

⚠ WARNING: Improper connection of the equipment-grounding conductor can result in a risk of electrical shock. Check with a qualified electrician or service person if you aren't sure if the outlet is properly grounded. **DO NOT MODIFY THE PLUG.** If it will not fit the outlet, have a proper outlet installed by a qualified electrician. This appliance is designed for use on a nominal 120-volt circuit, and has a grounding attachment plug that looks like the plug in the drawing above. Make certain that the appliance is connected to an outlet having the same configuration as the plug. No plug adapter should be used with this appliance.

This model is for household uses only.

Optional Accessories:

Mop Pads - 2 pack

Storage Hook With Screws

How to use this guide

This user's guide has been designed to help you get the maximum satisfaction from your BISSELL Steam Mop hard floor cleaner. You'll find assembly and operating instructions, safety precautions, as well as maintenance and troubleshooting instructions. Please read this guide thoroughly before assembling your Steam Mop.

Pay particular attention to the product diagram, assembly instructions, and part names. Locate and organize all parts before assembly. Familiarize yourself with the parts and where they go. Following this user's guide will greatly enhance your ability to get the most performance from your BISSELL Steam Mop for many years.

Your Steam Mop assembles quickly and easily. The only thing you will need for assembly is a Phillips head  screwdriver.

Your Steam Mop is packaged with the following items:

- Handle Assembly
- Lower Body with Filter
- Swivel Head
- Water Tank
- 1 large Philips Head Screw
- 1 small Philips Head Screw
- 2 Mop Pads

Assembly

1. Attach lower body to swivel head.
2. Secure swivel head with small Phillips head screw. Tighten until secure.
3. Slide handle assembly down into lower body until it will go no further.
4. Secure the handle by placing the large Phillips head screw through the screw opening in the lower body and into the rear of the handle assembly. Tighten with screwdriver until secure.
5. Slide water tank onto lower body by lining up vertical glides and gently sliding tank into place.

Steam Mop assembly is now complete.

Special features

Water tank

The water tank is located on the back of the Steam Mop. It can be refilled with water any time during use. Distilled or demineralized water may be used in place of tap water.

Do not use chemicals with your Steam Mop.

Water filter

This filter removes minerals and other impurities from tap water, preventing water deposits from damaging your Steam Mop. It should be replaced when the bright green grains turn blue. To maximize performance of the filter, distilled water may be used.

Ready light

The ready light will glow when tap water has been converted to steam and the Steam Mop is ready to use.

Trigger

Press to release steam.

Swivel head

Allows you to clean in tight spaces and under cabinets.

Mop pad

Reusable microfiber mop pad is machine washable and safe for all hard floor surfaces.

Tip:

Do not attempt to use your Steam Mop without water in the tank.

Operation

Getting ready

The mop pad may have already come attached to the swivel head, if not follow steps 1A and 1B below.

1. Attach mop pad.
 - A. Set swivel head in mop pad, making sure toggle is located on the back.
 - B. Tighten mop pad by pulling on elastic cord while pressing on toggle.
2. Fill the water tank
 - A. Remove tank by lifting straight up and away from unit.
 - B. Unscrew cap at bottom of water tank and remove the insert assembly.
 - C. Fill water tank with water. For best results, water should be at room temperature.
 - D. Replace insert assembly and cap, tighten until snug.
 - E. Replace water tank by lining up vertical guides and gently sliding tank into place.
3. Twist the quick release cord wrap clockwise to unwrap the power cord completely and plug into a 120-Volt grounded outlet as described on the Important Safety Instructions, page 3.
4. The ready light will illuminate when the Steam Mop is ready for use.

Before you clean

Thoroughly sweep or vacuum floor prior to cleaning with the Steam Mop.

Operation

Cleaning hard floors

Your Steam Mop is designed to clean hard flooring such as ceramic tile, vinyl, laminate, marble, stone and sealed hard wood floors. Use of your Steam Mop on waxed or some unwaxed floors may result in a diminished glossiness. The Steam Mop is not for use on unsealed wood floors. For best results test in an inconspicuous area or check the care instructions from your flooring manufacturer.

1. When the ready light illuminates, begin cleaning by slowly passing over surface while pressing trigger to emit steam.
2. To sanitize an area of your floor, leave the Steam Mop over area for a minimum 15 seconds, but no longer than 20 seconds. For larger areas, overlap swivel head placement.
3. When the Steam Mop stops emitting steam, simply remove the water tank, refill, and continue cleaning.

Maintenance and care

When you're done

1. Unplug power cord from outlet.
2. Carefully remove mop pad from swivel head, as mop pad and lower assembly will be hot.
3. Any water remaining in the water tank should be emptied prior to machine storage.
4. Mop pad can be machine washed in hot water. Tumble dry on low heat or air dry.
5. Wrap power cord around quick release cord wrap on side of Steam Mop.
6. Wipe all surfaces of Steam Mop with a soft cloth. Store upright in a protected, dry area.

NOTE: If steam output is reduced, the nozzle may be blocked. To remedy, unplug unit, remove swivel head from lower body and pour vinegar through center tube of swivel head "neck". Clear nozzle by inserting a paper clip into the brass spray tip located in bottom of lower body.

WARNING:
Never put descaling, aromatic, alcoholic, or detergent products into the steam cleaner, as this may damage it or make it unsafe for use.

Tip:

During first use, it may take several seconds for the Steam Mop to begin steaming. The water needs to flow through the filter to the heater. This delay will only occur during initial use or when using a new filter.

CAUTION:
Upright storage of the Steam Mop with a wet mop pad may result in the formation of white marks on your floor. To remove the white marks, clean area with vinegar.

Maintenance and care

Replacing the water filter

If you fill your Steam Mop cleaner with normal tap water, it is essential to check the water filter and replace it when it is no longer effective. Change the filter when the bright green grains turn blue. If the filter is not changed at the appropriate time, calcium deposits will accumulate on the heating element, causing damage or reduced performance.

Using distilled or demineralized water will maximize the performance of your filter.

To order a replacement water filter refer to the replacement parts section on page 11.

Tip:

Using distilled or demineralized water will maximize the performance of your filter.

Tip:

Be sure to use only a BISSELL water filter in your Steam Mop.

Troubleshooting

Reduced steam or no steam.

Possible Cause

1. Water tank empty
2. Depleted water filter
3. Blocked steam nozzle

Remedies

1. Fill tank
2. Replace filter
3. Refer to NOTE on bottom of page 8

Other maintenance or service not included in the manual should be performed by an authorized service representative.
