CARE AND MAINTENANCE

FRAMES

Cleaning — Use mild soap and warm water. Do not use abrasive materials, cleansers or bleach products. Rinse with clean water and dry thoroughly.

Warning: Water allowed to accumulate inside the frames could freeze and damage the frame tubing. Such damage is not covered under the warranty.

FABRIC (CUSHIONS AND SLINGS)

Cleaning — Wipe minor spills immediately. Clean fabric with mild soap, warm water and a soft cloth. Although the fabric has been treated to resist stains, over time it may be necessary to use commercially available cleaners. Always follow the manufacturer's instructions.

Maintenance — The best way to maintain the beauty of your cushions or slings is to store them in a dry area out of the elements or cover them with furniture covers (sold separately) when not in use. If your furniture is being used in areas where birds and trees are plentiful, covering your furniture is especially recommended.
