LEAD 100 7MM NET IMPORTANT SAFETY INSTRUCTIONS

When using electric products, basic precautions should always be followed including the following: READ & FOLLOW ALL SAFETY INSTRUCTIONS

1. This is an electric product—not a toy! To avoid risk of fire, burns, personal injury and electric shock, it should not be played with or placed where small children can reach it.

2. Do not use the product in unsuitable or outdoor use. When products are used in outdoor applications, connect the product to a Ground Fault Circuit Interrupting (GFCI) outlet. If one is not provided, contact a qualified electrician for proper installation.

3. Do not use this product for other than its intended use.

4. This seasonal use product is not intended for permanent use or installation. When using electric products, basic precautions should always be followed including the following:

5. If the product is placed on a tree, the tree should be well secured and stable.

6. When the product is used on a live tree, the tree should be well maintained and fresh. Do not place on live branches, or bushes, to avoid any undue strain or stress on the product conductors, connections, and wires.

7. Do not secure the wiring of the product with staples or nails, or place on sharp hooks or nails. Do not hang ornaments or other Objects from cord, wire, or light string.

8. Do not replace lighting on carpeting, drapes, furniture, or allow it to contact vinyl siding or other flammable material. Do not place lighting string on carpets, draperies, furniture, or allow it to come into contact with vinyl siding or other flammable materials.

9. Do not place lighting string on carpeting, drapes, furniture, or allow it to contact vinyl siding or other flammable materials.

10. Do not perform any maintenance or troubleshooting for bad or broken lamps while the power is on.

11. Do not allow children to touch the product or the electric supply. Do not allow children to handle or use the product unattended.

12. Do not cover the product with cloth, paper or any material not part of the product when in use.

13. This product is equipped with non-shunted type L.E.D. lamps. Do not twist or attempt to remove lamps.

14. This product employs an overloading protection fuse (fuse). A blown fuse indicates an overloaded or short-circuit situation. If the fuse blows, unplug the product from the outlet. Also unplug any additional strings or products that may be attached to the product. Replace the fuse as per the user's instruction manual. Replace the product main fuse (replace proper fuse rating) and check the product. If the replacement fuse blows, a short-circuit may be present and the fuse should be discarded.

15. Do not let lamps rest on the power cord on or near any fire hazard.

16. Read and follow all instructions that are on the product or provided with the product.

SAFETY INSTRUCTIONS AND USE CARE INSTRUCTIONS

! IMPORTANT SAFETY INSTRUCTIONS

1. Before using or reusing, inspect product carefully. Discard any products that have cut, damaged, or frayed wire insulation.

2. Do not use seasonal products outdoors unless marked suitable for indoor and outdoor use. When using electric products, basic precautions should always be followed including the following:

3. Do not perform any maintenance on or to the product while the power is on.

USING STRING LIGHTS

1. This lighting string is rated 8.0 Watts (0.067Amps), do not overload. Connect other lighting strings or decorative outfits end-to-end up to a maximum of 210 Watts (1.75Amps) total.

2. If connecting to a Lighting String that does not have a Wattage (W) rating, on the cord tag with in 6 inches of the plug, calculate the wattage as follows: Multiply the current (A), which is also on that cord tag, by 120.

3. The Lighting String is rated 120V, 60Hz, 0.2Amps. 0.2x120=24Watts. Add the wattage of each light string together for a total of 210 Watts or less. (Do not exceed 210 Watts.)

4. To reduce the risk of overheating and fire, Do not install on trees having needles, leaves or branch coverings of metal or materials that look like metal, and Do not mount or support strings in a manner that can cut or damage wire insulation.

5. To reduce the risk of fire electric shock. Do not install on trees having needles, leaves or branch coverings of metal or materials that look like metal, and Do not mount or support strings in a manner that can cut or damage wire insulation.

6. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(i) This device may not cause harmful interference, and

(ii) This device must accept any interference received, including interference that may cause undesired operation.

Modifications not approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and radiates radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
