

Manufacturer's Warranty-Reed Fencing

The manufacturer offers a one year warranty on reed fencing covering only manufacturer defects.

The manufacturer is not responsible for the conditions listed below.

- Reed will naturally age to a grey-silvery color and may break or crack.
- There are rare instances that mildew will develop in wet weather causing a mold-like substance to appear on your reed. Any wood sealer available at hardware stores can potentially add protection from UV and varied weather condition.
- The manufacturer does not guarantee the physical consistency or the size of our reed fencing or nor will we guarantee that the fencing is exactly 16' in length.
- Fencing products are bound together with metal wire which will show signs of rust over an extended period.
