- Recessed Broiler Safe for your hands

IT'S A BIG DEAL

Our LG double oven is equipped with an enormous 6.7 cubic feet of room plus an upper oven that's 6" high—the tallest upper oven in the industry. Now you can bake and broil tall items in the small oven without having to pre-heat your entire oven. Or you can use both ovens and cook two dishes at once. Either way, your cooking will taste larger than life.

Large Capacity

Cook two meals at once – Allows you to cook different dishes at different temperatures all at the same time. Gives you room for everything you'd need for a holiday dinner

IntuiTouch™ Control System

Easy to use and easy to clean, the IntuiTouch™ Control System makes operating your range a snap. The left side of the panel mirrors the cooktop elements, while the right side controls the oven functions.

Tall Upper Oven

LG provides you with a tall upper oven, allowing you to bake and broil tall items in the smaller oven without having to preheat a big oven. The 6" height allows for easier access to insert or remove items from the oven.

CAPACITY

Oven Capacity	2.3 cu.ft. Upper / 4.4 cu.ft. Lower.
Total Capacity	6.7 cu.ft.
