Required Electrical Service

Dedicated circuit required, protected with Class A Ground-Fault Circuit-Interrupter (GFCI):

Blower motor 120 V, 15 A, 60 Hz

Blower motor is supplied with a 24" (61 cm) grounding-type plug-in cord.

Installation Notes

NOTICE: If the blower motor and check valve are relocated, the following two procedures are required: 1. Provide two access panels. Locate one access panel at the blower motor/control location and the other access panel at the control box. **2.** Relocate the blower motor and the check valve together. Do not relocate one without the other.

Install this product according to the installation guide.

Floor support under the bath must provide for a minimum of 47 lbs/square foot (229 kg/square meter) loading.

No change in measurements with drain shown. (K-7161-AF or K-7161M-AF)
