FEATURES & BENEFITS

Independent Drawers	The Double DishDrawer™ dishwasher fits seven place settings per drawer and provides ultimate convenience as one drawer can be washing as you fill the other. DishDrawer™ dishwashers allow flexible design options and good ergonomics in the kitchen. The double drawers can be used together or one at a time allowing you match the wash program to the exact load type in each drawer.
Superior Cleaning	Unique SmartDrive™ technology has few moving parts, resulting in greater reliability. The pump brings water into the spray arm, which rotates at different speeds depending on the wash cycle selected, to deliver a superior clean and better dish care.
Nine Wash Options	This DishDrawer™ dishwasher features nine essential wash programs: Rinse, Fast, Delicate, Normal Eco, Normal and Heavy. The range of settings enables this DishDrawer™ dishwasher to wash everything from fine glass and crystal to heavily soiled pots and pans at the touch of a button. A single control interface provides simple program selection and operation, while the 'delay' start setting means the dishes can be done when it's most convenient.
Reliable Filtration	One of the challenges in all dishwashers is a robust filter system that removes debris and avoids blocking. This DishDrawer™ dishwasher has a 3 stage filtration process with removable components for easy and hygienic cleaning.
Simple Racking System	DishDrawer™ dishwashers have simple and useful racking options. The cutlery basket can be customized for different utensils. Cup racks and tines can be folded flat to accommodate pots or upwards to hold glassware. Wine glass holders ensure that short and long stemmed glasses are secure throughout the wash.
