Installation Notes

Install this product according to the installation guide.

ADA compliant when installed to the specific requirement of the regulation.

NOTICE: Due to the non-standard 2" (51 mm) diameter of the remote valve, the remote valve **cannot** be mounted through a standard 1-3/8" (35 mm) faucet hole of a sink. Choose a sink without faucet holes, then mount the faucet and remote valve through the countertop. Refer to the countertop manufacturer's instructions for proper hole drilling.
