

Quick Change

UNDER SINK SINGLE STAGE PLUS

Water Filtration System –
Includes Dedicated Faucet

Model 4US-MAXL-S01H

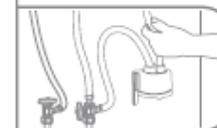

- Reduction of chlorine taste and odor, sand, sediment, rust and soil
- Reduces select chemicals, lead, std. 401 pharmaceuticals and microbial cysts
- Single filter does the work of a traditional 2-stage system
- 25% faster flow rate than comparable systems
- Easy-to-change filter lasts up to 6 months

Easy To Install†,^

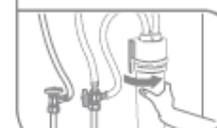

STEP 1:

Turn off water & attach dedicated faucet water supply hose (using grey tubing attached to dedicated faucet) to quick connect output on filter head.

STEP 2:

Use grey tubing to attach water supply to quick connect input on filter head.

STEP 3:

Attach filter with easy 1/4 turn installation & turn on water.

† See Use & Care Guide for detailed install instructions.

^ Using existing countertop opening.
