

## Sump Style

# WHOLE HOUSE

## Standard Capacity Water Filtration System

Model 3WH-STD-S01H

- Protect your plumbing, appliances and showers by reducing sand, sediment, rust and soil in your water
- Choose from 30-micron (pleated) to 5-micron (grooved) sediment reduction
- For 2 bathrooms or less households
- 3-month pleated filter included

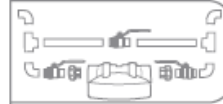

## Installation^

**IMPORTANT:** Before beginning install, be sure to plan and measure your install location and components as instructed, and create a mounting frame if necessary.

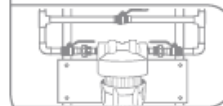

### STEP 1:

Turn off water supply, relieve plumbing system pressure by opening a faucet.

### STEP 2:

Cut out a section of existing plumbing corresponding to size and location of your assembly. Use fittings (not included) to attach assembly as described in Use & Care Guide.

### STEP 3:

Mount filter head and install filter cartridge. Turn on water supply.

\* Read detailed installation instructions in Use & Care Guide prior to installation
