

# Instructions: Generator Cover

---

## Installation

Check your generator to make sure there are no sharp objects or corners that could stress your cover as you pull it on.

Open the panel attached with hook and loop tabs and slip your cover over your generator with this panel to the back. Close the cover by aligning the hook and loop tabs together.

Fit handles through the provided openings in the upper back corners

then close the back panel underneath them.

## Cleaning

Clean your cover with a soft brush and luke-warm water or machine wash in COLD water. DO NOT USE SOAP as it may remove the protective coatings added by the factory. Line dry or machine dry on air or delicate.

## One Year Warranty

This cover is factory warranted for workmanship and materials for one year after purchase.
