

E-Z Mini Melter Series

Pavement Preservation for Small Projects

Mini Melter 10

Mini Melter 30

Pour Pot with Wheels

Specifically Designed for Small Project Pavement Preservation

The Crafcro Mini 10 and Mini 30 are the choice of small contractors, property owners and municipalities in search of an easy to use and economical melter.

The Mini Melter 10 is a hand agitated, 10 gallon melter/applicator, that will melt sealant for application. The wheeled melter easily follows random cracks for efficient crack sealing.

The Mini Melter 30 (air jacketed, hand agitated) is a 30 gallon sealant melter and dispenser that can be used in conjunction with the Mini Melter 10 or the Crafcro Pour Pot with wheels.

The Wheeled Pour Pot is used to apply a uniform band of sealant to a crack or joint. Wheeled for ease of use and ideally used with the Mini Melter 30.

The Mini Melter System is an ideal optional "add on" if crack sealing is required prior to sealcoating.

Delivering Confidence Through Innovation, Quality and Value Since 1976
