

Voice-activated Control

Andy is a built-in "smart assistant" that allows BRANO® Range Hood users to operate the hood just use the voice. With "Hi Andy", you can perform all the actions on your range hood.

Just say "Hi Andy" to activate the voice control, **hold the minus button for 3 seconds can turn on/off the voice control sensor.**

Talking to Andy is a quick way to get things done, when you activate Andy with your voice, Andy responds out loud:

- Hi Andy!
- Power on
- Light on
- Light off
- Delay Shutdown
- Speed one
- Speed two
- Speed three
- Speed four
- Power OFF

- (Hi I'm here!)
- (OK, working now)
- (OK, lights on)
- (OK, lights off)
- (OK, shutdown 3 minutes later)
- (OK, Speed one)
- (OK, Speed two)
- (OK, Speed three)
- (OK, Speed four)
- (OK, Goodbye!)

Andy will say "see you later" if no voice commands in 15 seconds, but Andy will work for you again at anytime when you say "Hi Andy!".
