

Large Capacity Quick Change WHOLE HOUSE Water Filtration System

Model 4WH-QSS-S01H

- The 3M revolutionary patented whole house quick change system filters water throughout your home so you can enjoy cleaner water for drinking and showering while protecting your plumbing by reducing sand, sediment, rust and soil (5-micron sediment reduction)
- Includes scale inhibition to reduce scale buildup and extend the life of your hot water appliances
- Ideal for households with 2 or more bathrooms
- No-mess, 1/4 turn filters are easy to replace

Installation†

IMPORTANT: Before beginning install, be sure to plan and measure your install location and components. Cut pipe lengths, assemble components as required, and create a mounting frame if necessary.

STEP 1:

Turn off water supply, relieve plumbing system pressure by opening a faucet.

STEP 2:

Cut out a section of existing plumbing corresponding to size and location of your assembly.

STEP 3:

Mount filter head and install filter cartridge with easy 1/4 turn.

† See Use & Care Guide for detailed install instructions.
