Complete set up in the CYNC App, then see what it can do

Install your Smart Switch

Download the CYNC App

Add your Smart Switch to the CYNC App

Automate your lights to turn on when you come home.

Go to **Cync App** and schedule times to turn your lights on and off under **routines.**

Use your voice to turn off lights.

Connect to Amazon Alexa or Hey Google voice assistants in the **Cync App** (sold separately), then say Alexa, turn off lights or Hey Google, turn off lights.
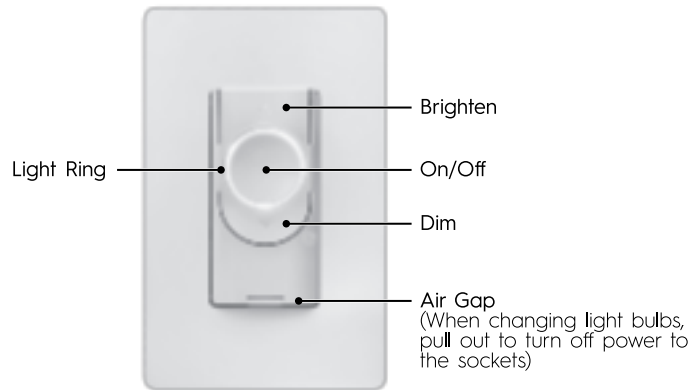

Control other CYNC or C by GE lights in the room with your switch.

In the **CYNC App**, add lights to the **same room or group** as your switch (lights sold separately).
