

Open Frame Generator Compatibility Chart

GenTent Universal Kits - Original Size

Below you can find a list of portable generators compatible with the GenTent Open Frame Original Size models. GenTent uses a steel clamp system to attach to the available vertical frame posts, creating a full protective operational cover to use your generator in wet weather. If you have a fully encased inverter, please see our other listings. If you have a larger open frame model than below, please see our XL model listings. If you do not see your generator brand or model below, you can contact us at support@gentent.com for more help.

Search Tip: Press Ctrl+F (Windows) or ⌘+F (Mac) to quickly find your generator brand (i.e. Generac, DuroMax, Westinghouse, Champion); or model (i.e. GP5500, WGEN14500, EB2800)
