# Battery Powered Wall Light
Installation Instructions

(1) Use screws to fix the magnetic sheet to the wall.

(2) Insert the light bar into the body (the light bar can be rotated 360°).

(3) Attract the wall light to the magnetic sheet.
(Besides, the wall light can be directly attracted to the magnetic surface.)

(1)

(2)

**360°
rotatable**

(3)

NOTE:

* Remove fixture from its original package.
* Prepare everything in a clear area.
* Please check whether the product can work normally with the remote before you start assembly.
* Read instructions carefully before you start assembly.
* Please check if the red indicator light is on when charging.
* It's recommended to use the 5V/2A charger to avoid long charging time.
* Please fully charge the wall light with a 5V/2A charger before use.
* Keep this installation sheet for future reference.
