

LED Flame
**SOLAR
RUSTIC
TORCH**

Patented Flame
Technology

Designed and
Engineered in
the USA

Power On

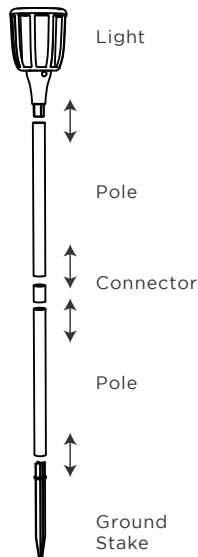

- ① Press the On/Off button.
- ② To test the light during the day, cover the solar panel with your hand. The torch should light up if it's charged.

*The torch automatically turns on at dusk and off at dawn.

Install

- ① Push the ground stake, 1-2 poles, connector, and light firmly together.
- ② Find a sunny area where the soil is soft and push the stake into the ground.

Warnings

- Do not submerge in water.
- Neighbors may mistake the light for an unattended open flame. Assure them FoxFlame is 100% safe!
