C 8 ea
Short dowel

F 4 ea
Plastic stop

B 1 ea
Hex wrench

D 12 ea
Screw cover

G 4 ea
Long dowel

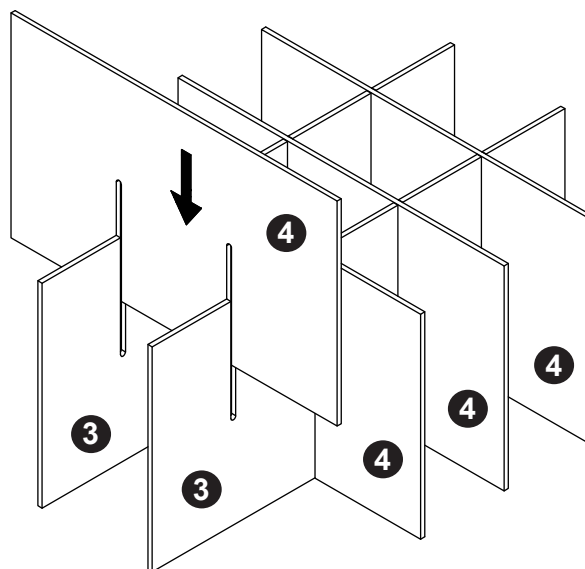

E 4 ea
Phillips screw

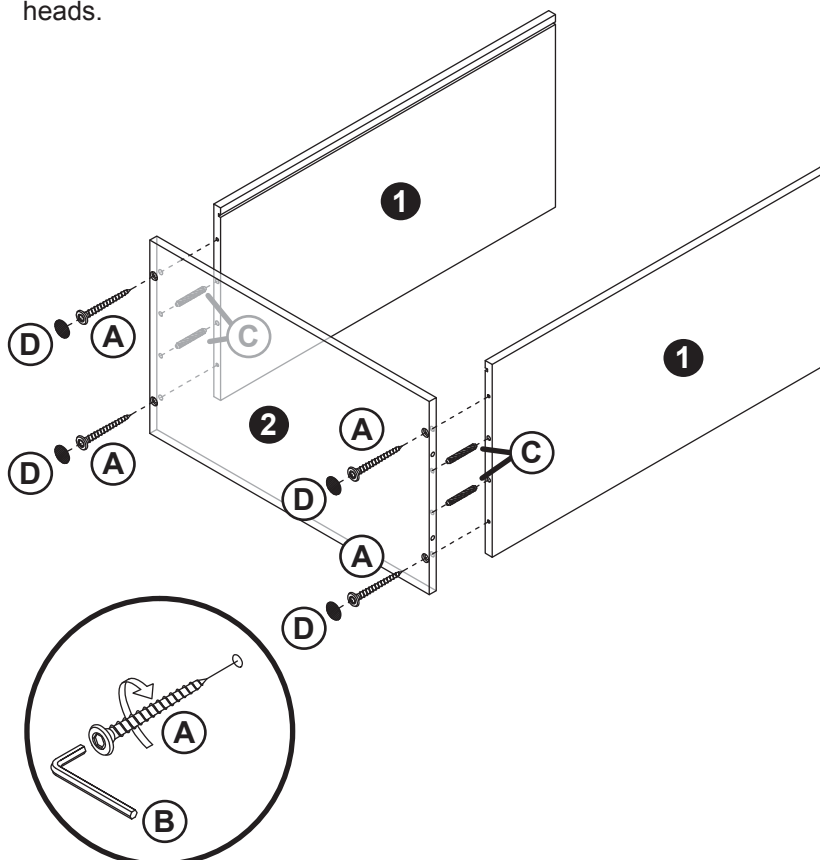

SAFETY PRECAUTIONS:**WARNING**

- This unit contains small parts which could be a choking hazard for small children. Children should be under adult supervision at all times or serious injury could occur.
- Always unload unit prior to moving the unit. The weight of personal belongings can cause the unit to become unstable and either tip or collapse. Serious bodily injury and/or damage to personal belongings may occur.
- Do not overload unit. If any shelf, top, or bottom of unit bows or bends, it is overloaded. The shelf, top, or bottom could collapse and cause serious bodily injury and/or damage to personal belongings.
- Do not climb or step on the unit. The unit may become unstable and either tip or collapse. Serious bodily injury and/or damage to personal belongings may occur.
- Do not mount or attach anything to the sides, rear or front of the unit as this can create a force which can cause the unit to tip. Serious bodily injury and/or damage to personal belongings may occur.
- Do not hang this unit on the wall. The product structure is not designed for wall hanging. Serious bodily injury, damage to personal belongings, and/or damage to the wall may occur.
- All units must be secured individually to a wall stud using a safety strap and screws (not included). If wall stud is not accessible consult your local hardware store for appropriate mounting hardware. Failure to do so may create an unsafe tipping hazard that could lead to serious bodily injury and/or damage to personal belongings.
- Follow proper safety procedures when using power tools and ladders (when applicable).
- We recommend you protect your work surface during assembly to prevent scratching or damage to table tops, wood floors, etc.

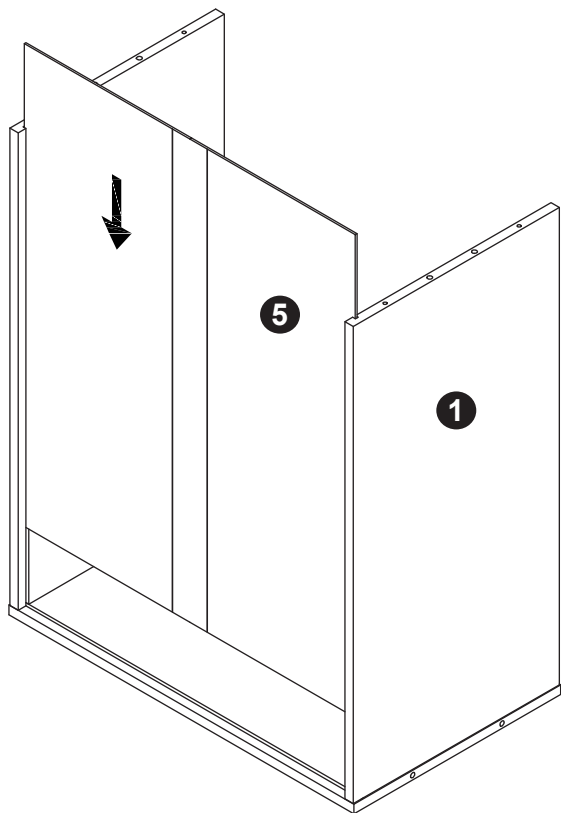

Step 1: Slide four 2-slot interior panels (4) into the slots of two 4-slot interior panels (3).

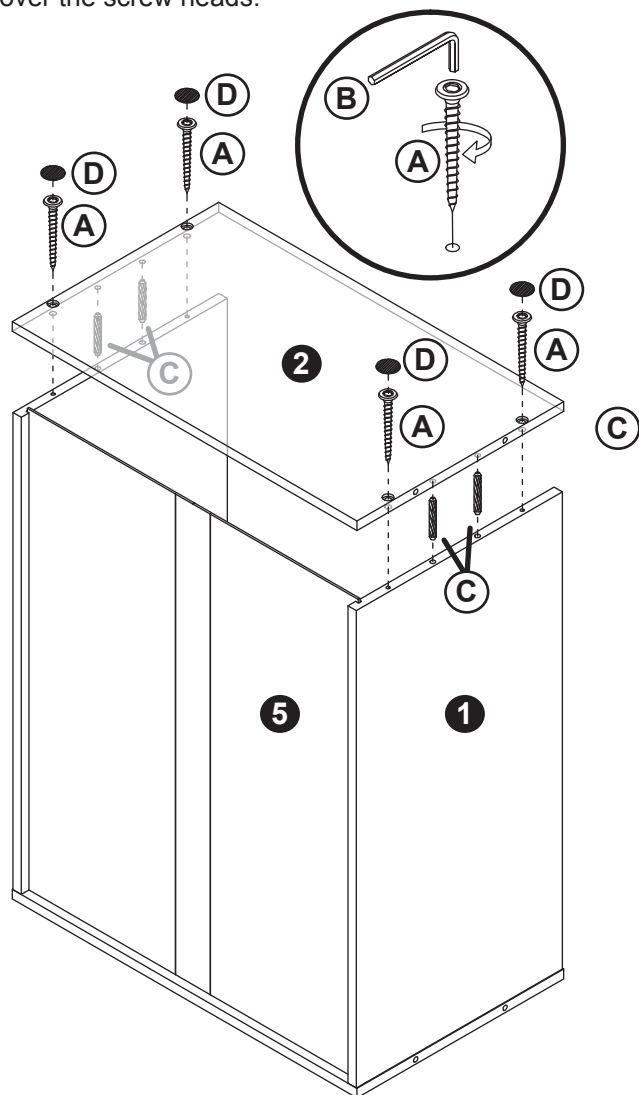

Step 2: Insert short dowels (C) into the inside predrilled holes in the end of the top/bottom panels (1). Push the top/bottom panels (1) with dowels into the predrilled holes on the back side of a side panel (2). Attach with four hex screws (A). Tighten with hex wrench (B). Apply four screw covers (D) over the screw heads.

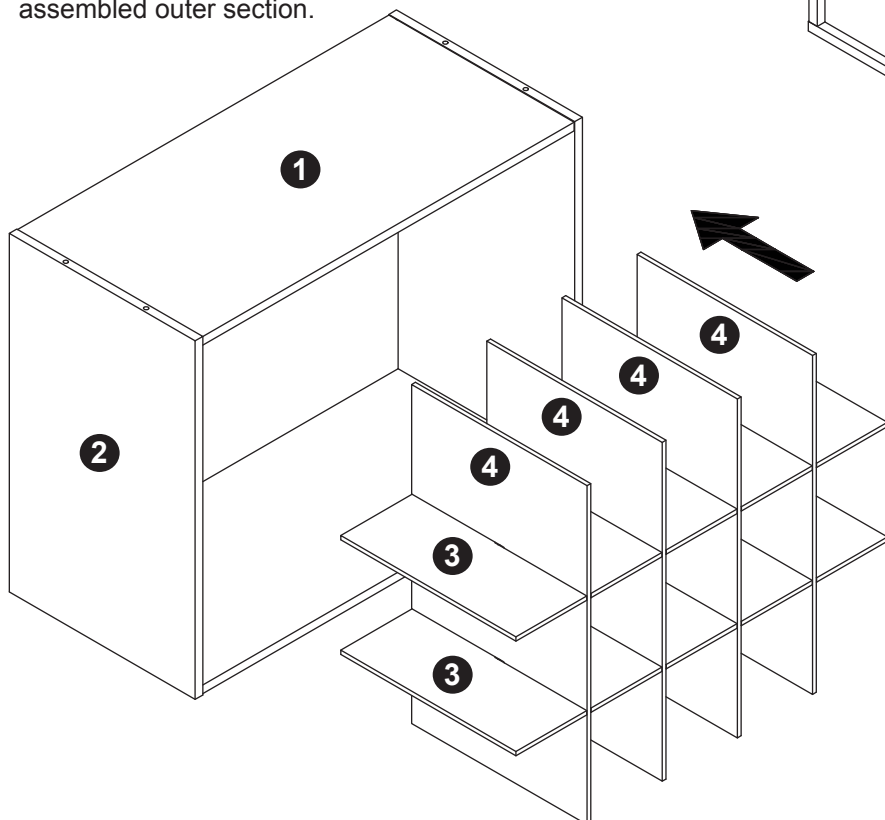

Step 3: Slide the back panel (5) into the grooves on the inside of the assembled section.

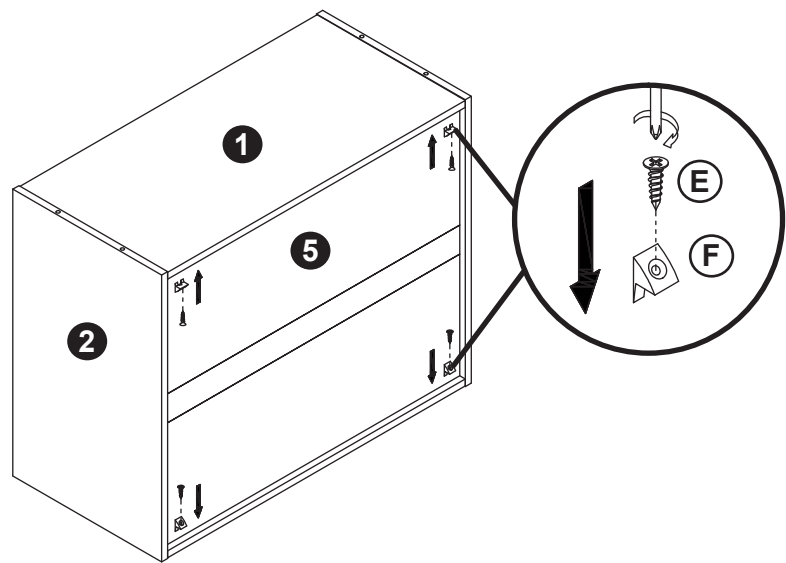

Step 4: Insert short dowels (C) into the inside predrilled holes in the end of the top/bottom panels (1). Push the side panel (2) onto the top/bottom panels (1) aligning the dowels with the holes. Attach with four hex screws (A). Tighten with hex wrench (B). Apply four screw covers (D) over the screw heads.

Step 5: Insert the assembled interior panels into the assembled outer section.

Step 6: Place the four plastic stops (F) at the diagram locations on the back of the unit and attach with Phillips screws (E). Tighten with a Phillips screwdriver (not included).

STACKING INSTRUCTIONS:

Note: Multiple units (sold separately) can be stacked using the four long dowels (G) included. When stacking multiple units make sure both units have a safety strap (not included) installed to the back of the unit and to the wall for stability.

WARNING

All units MUST be fastened to the wall. When stacking units, the unit on the bottom must be attached to the wall first before setting another unit on top. Do not stack units more than 72" high.

Note: To hide the dowel holes on the top of a single unit or the top of a stacked unit. Place four screw covers (D) over the holes.

Part	Reference	Part	Reference
