

Van Zyverden's
BLAZING STAR GIANT LIATRIS SPICATA

Liatris Spicata is a tall upright, clump forming perennial which is native to moist low grounds, meadows and marsh margins. Its spikes produce deep purple flower heads atop rigid leafy flower stalks.

*larger bulbs produce
stronger plants with more flowers*

also known as gay feather

fragrant, attracting many butterflies

About This Variety: What sets these giant liatris bulbs apart however from our other liatris bulbs are its mammoth sized bulbs of 14/+ cm. They are the best of the best! Starting out with larger bulbs from the get go, rewards you with bigger and stronger plants with more and larger flowers sooner. A little more expensive, but why wait?

Growing Instructions: Easily grown in just about any type of soil but does prefer moist soils.

Care Tip: Tolerant of summer heat and humidity.

Exposure: full sun to partial shade

Height: grows 24-48" tall

Spacing: plant 18" apart, 1.5-2" deep

USDA Zones: hardy in USDA zones 3-9

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
