HERE'S HOW TO TAKE CARE OF ME

Monstera

LIGHT

I tolerate low light, but grows faster and becomes more dramatic in a bright spot from a west or east window.

WATER

Water me when the top couple inches into the soil are dry, I prefer above average humidity levels. Allow water to drain thoroughly; remove any excess water.

FOOD

Feed me once or twice a year during Spring and Summer with a fertilizer formulated for houseplants.

FEATURES

I have large, dramatic leaves that can purify the air and I am super easy to grow.

GROWING TIPS

Rotate the plant every couple of weeks for even growth. Monstera has a vining habit and over time it does best climbing up a support. To boost humidity, use a pebble tray.

GIVE ME FRIENDS

(I play well with)

Ficus, Snake Plant, or Money Tree
