HERE'S HOW TO TAKE CARE OF ME

ZZ Plant

LIGHT

I tolerate low light well, but also grow in bright spots. I don't even need natural light to thrive; I can grow with fluorescent lighting too.

WATER

I like to be kept dry, I may only need watering once every two weeks. If in doubt, its best to stay on the drier side.

FOOD

Feed me once or twice a year during Spring and Summer with a fertilizer formulated for houseplants.

FEATURES

I am drought-tolerant and slow growing.

GROWING TIPS

The ZZ plant will let you know when you've ignored it long enough; it will drop a leaf or two to conserve moisture. Rotate the plant every couple of weeks for even growth.

GIVE ME FRIENDS

(I play well with)

Aglaonemas or Snake Plants
