## WHY CHOOSE A GARAGE DOOR FROM PELLA?

Unique designs. Exceptional performance.

### Energy Efficiency

Pella® garage doors offer a range of insulations and door thicknesses to provide the energy efficiency that you desire. The higher the R-value insulation rating, the better the garage door will maintain the temperature in your garage to help keep out the cold or heat – especially important when the garage is attached to your home.

### Quiet Operation

When the location of your garage is next to or below your living spaces, a door that operates more quietly is important.

Pella offers you a range of construction options to best suit your needs. For maximum performance, choose a thicker, polyurethane-insulated door.

### Advanced Protection

Pella Wind Load approved garage doors help protect from strong winds. In hurricane regions, Pella doors with impact resistance construction<sup>1</sup> provide strong protection from flying debris.

<sup>1</sup> Garage doors can withstand rapid cyclic pressure and static forces up to 185mph (per ASCE 7-05). Option available on select models only.

## Style and Variety

Whether your home is traditional or contemporary, elegant or casual, our Pella® garage door designs can add beauty, curb appeal and lasting value. Pella offers a broad range of garage door designs to meet the unique needs of the individual homeowner. Choose from over 1,000 designs to find the garage door that fits your style and budget.

## Extra Strong and Durable

Pella garage doors are made with high quality materials, durable construction and skilled craftsmanship.

Heavy-duty 14-gauge hardware and premium nylon rollers come standard with every Pella garage door.

## Strong Warranties

Pella garage doors come standard with finish, hardware and a one-year warranty. Finish and hardware warranties vary from Limited Lifetime to 1-year time periods. Coverage within the defined warranty periods do not decrease over time.

## MATERIAL OPTIONS

Enjoy exceptional curb appeal and performance.

Our garage doors are available in four material types, each offering its own distinctive style and unique benefits. Choices of steel, wood, aluminum or vinyl allow you to choose the material that suits your busy lifestyle and enhances the curb appeal of your home.

### Aluminum

Beautiful, Sleek, Modern Design

- Transform your garage into a bright and inviting space
- Brilliant colored frames and glass options to complement your individual style
- Durable, low maintenance and rust resistant

Available in: PELLA®

### Steel

Strong, Durable and Low Maintenance

- Steel panels provide a quality appearance that's easy to maintain
- All Pella® steel doors feature deeply sculpted panels with beveled embossment to create the appearance of a painted woodgrain door
- Heavy-duty steel adds durability

Available in: PELLA® THERMASTAR BY PELLA®

## DOOR STYLE OPTIONS

Pella has the style you are looking for.

At Pella, we realize you want a garage door with curb appeal. That is why we offer garage doors in Carriage House, Full View or Traditional styling to complement your home. Pella has a garage door that fits your style and budget.

### Carriage House

Add unique character to your home with a Pella® Carriage House garage door that brings authentic, historical looks into the modern world.

Available in: **ARCHITECT SERIES®** **PELLA®**  
**THERMASTAR BY PELLA®**

### Full View

These modern, sleek, Pella garage doors mirror the clean lines of contemporary homes.

Available on: **PELLA®**

### Traditional

Classic styling that coordinates with any home and stands the test of time.

Available on: **PELLA®** **THERMASTAR BY PELLA®**

## DECORATIVE WINDOW OPTIONS

Enhance your door with light.

Decorative windows dress up your Pella® garage door. Choose the window design that fits your style and complements your home's exterior.

### Decorative Windows

Our decorative glass offers unique designs to enhance the beauty of your home. Enjoy minimal visibility into the garage with obscure glass. Tempered with a baked-on ceramic design, our decorative window designs resist yellowing, fading and peeling.

Available on: PELLA® THERMASTAR BY PELLA®

### Decorative Grilles

Our most affordable decorative window options offer popular patterns to complement other architectural elements of your home. All Pella decorative grilles are UV fade resistant with a realistic-looking embossed woodgrain finish.

Available on: PELLA® THERMASTAR BY PELLA®

## DECORATIVE HARDWARE OPTIONS

Personalize your door to the finest details.

### Decorative Hardware

Our decorative hardware adds the final touches to our Carriage House garage doors. Styles available include lightweight aluminum to best simulate historic hammered wrought iron, easy to install vinyl or economical stamped steel hardware.

Available in: ARCHITECT SERIES® PELLA®

## CONSTRUCTION OPTIONS

More energy efficiency and sound control.

With 1-, 2- or 3-layer construction options, you can select a Pella® garage door with your desired level of energy efficiency and quiet operation. Choose a Pella garage door with SafeShield construction to help protect your loved ones from injuries.

### Construction Layers

The more layers of construction and the thicker the door, the better the Pella garage door can help maintain the temperature in your garage and lower the door operating noise level. This is especially important if the garage is attached to your home or used as living space.

INCREASED ENERGY EFFICIENCY & QUIET OPERATION

Available on: **PELLA®** **THERMASTAR BY PELLA®**

## WIND LOAD OPTIONS

Reinforce your garage door to help withstand high wind conditions.

You don't have to compromise style or curb appeal for high wind preparedness. Most Pella® garage doors are available with a wind load reinforcement system that meets or exceeds the building code requirements in your area.

### Door Reinforcement

Pella garage doors become wind load approved with the addition of a variety of supports such as struts, R-trusses and heavy-duty hardware that are engineered to meet specific building code requirements.

Available in:

ARCHITECT SERIES®

PELLA®

THERMASTAR BY PELLA®

### Impact Resistant

Select impact-rated Pella garage doors with impact windows can withstand flying debris and house pressurization that can occur during a hurricane. These garage doors may qualify for discounts on your homeowner's insurance.\*

Available in:

ARCHITECT SERIES®

PELLA®

THERMASTAR BY PELLA®

\* Check with your insurance provider for details. Local government regulations for wind load requirements can vary due to location and door size. The homeowner is responsible to make sure their garage door meets local building codes.

# Ventura ALUMINUM FULL VIEW

Sleek, modern styling that brightens your home.

Bring the outdoors inside with a Pella® Ventura garage door. These rust-resistant, low-maintenance doors offer large expanses of glass to brighten your garage and home.

Available on: **PELLA®**

Ventura with Bronze Textured frame and Frosted glass.

Ventura with Anodized Clear frame and Obscure glass.
