ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

Step 1: Loosen the quick link hook to set the desired height of the suspension chain and the power cord.
Step 2: Pass the iron beaded tube through the arched cover and the central hole of the glass. Fit a silicone gasket and secure it with an iron column lock bead.
Step 3: Screw the center rod onto the fixture body.
Step 4: Secure the swivel connector onto the center rod.
Step 5: Fit the threaded tubes on the suspension rod with a silicone gaskets. Pass them through the edge holes of the glass shade and secure them with arched semi-circular components.
Step 6: Place the tube cover over the threaded tube on the fixture, and tighten the suspension ring.
Step 7: Secure the mounting plate to a UL-listed junction box using provided mounting screws.
Step 8: Connect the fixture wires to the supply wires using wire connectors.
·Note: Connect the black (hot) wire to the black wire, the white (neutral) wire to the white wire, and the ground wire to the grounding terminal.
·Ensure no exposed conductors remain outside wire connectors or outside the junction box.
Step 9: Secure the canopy to the mounting plate using screws.
Step 10: Install the bulb into the lamp socket. (Bulb Not Included)
Step 11: Turn on the power and check if the bulb is working properly.
Installation is complete.

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.
1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
